Full analysis

Overview

LIFE PAY is a Russian B2B payment-services website presenting merchant acquiring, online cash registers, payment equipment, QR payments, integrations, analytics, and industry-specific business solutions for commercial customers.

Scam/Impersonation Risk

No phishing, impersonation, blacklist, malicious-content, or conflicting-identity indicators were observed. The site's sustained historical presence and clean external reputation support continuity of the LIFE PAY identity rather than a recently created or repurposed operation.

EVIDENCE

- The domain was registered in 2012 and is approximately 14.08 years old.
- The site has 412 archive snapshots spanning 2012–2026, with 15 years tracked.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist hit.
- The homepage presents a coherent corporate B2B payment-services identity without detected brand-impersonation indicators.

Regulatory Verification Notes

LIFE PAY describes a conventional commercial model based on payment acquiring, cash-register software, merchant equipment, integrations, and service fees. The homepage provides pricing examples, partner-bank promotions, legal disclosures, a Moscow address, contact details, and a business lead form; however, no specific regulatory license or registration number is identified in the supplied evidence, so licensing remains a documentation point for independent confirmation rather than an indication of misconduct. No matching third-party broker warning was identified.

EVIDENCE

- The homepage describes acquiring, online cash registers, POS equipment, QR/SBP payments, APIs, analytics, and BNPL for retail.
- Legal and contact content includes a Moscow address, disclosures, pricing information, and a lead form requesting name, phone, and email.
- Hosted on AS200350 (YandexCloud - Yandex.Cloud LLC, RU).
- TLS certificate issued by YR1 (DV), valid to 2026-10-17.

What to Verify Next

Before entering a formal commercial relationship, confirm any applicable licensing or registration requirements with the relevant Russian registry and validate contractual counterparties through independently obtained corporate contact details. Standard procurement controls should also confirm pricing, settlement terms, data-processing obligations, and support escalation routes.

EVIDENCE

- The homepage contains legal disclosures and commercial pricing examples suitable for document-level review.
- The supplied analysis records no verified license number or licensing authority.
- The contact and lead-generation workflow is presented directly on the corporate homepage.

Summary Verdict

LIFE PAY presents as a legitimate, established, and trustworthy business-services website with a low-risk corporate profile and no observed contradiction indicators. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site resolves directly to YandexCloud infrastructure in Russia, with no CDN or WAF detected and one likely origin address exposed. This is a neutral hosting posture; the valid TLS certificate provides transport protection but does not independently establish legitimacy.

Closing Assessment

Normal business use is appropriate, subject to ordinary enterprise procurement, contractual, and regulatory due diligence.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about life-pay.ru at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
