

Is lifetimes.co legit? TrustSniffer's high-trust assessment: 100/100

lifetimes.co

Verdict

100

OUT OF 100

HIGH TRUST

lifetimes.co appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-01 by automated analysis. Classification confidence 65%.

What this site appears to be

LifeTimes is a beta social genealogy platform for building collaborative family trees, timelines, maps, and shared family memories. It offers free unlimited access without a credit card and includes normal sign-in and password-reset functionality.

Evidence status and limitations

Evidence completeness: UNKNOWN

- Module-level completeness metadata is unavailable for this legacy report.

At a glance

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2018.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

LifeTimes is a beta social genealogy platform that lets families collaboratively build interactive trees, timelines, maps, and shared memories through a free, unlimited-access service with no stated subscriptions, paywalls, or premium tiers.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent family-history service, with ordinary registration, sign-in, and password-reset functionality; behavioral testing found no cloaking, hidden forms, wallet activity, clipboard manipulation, or suspicious scripts. The stated features and business model are internally consistent with a legitimate social software platform.

- Homepage describes collaborative family trees, timelines, maps, photos, stories, and memories.
- Homepage states that access is free, requires no credit card, and has no subscriptions, paywalls, or premium tiers.
- Behavioral testing recorded two successful runs with no cloaking, hidden forms, wallet activity, or clipboard manipulation.
- Domain registered 2015-10-14; age 10.81 years.

Regulatory Verification Notes

The service appears established and operational, but its homepage does not make a specific licensing or regulated-financial-service claim. This is a limited disclosure matter rather than evidence of deception. Its established registration, sustained archival presence, clean reputation results, and normal product presentation support legitimacy; any applicable corporate, privacy, or consumer obligations should nevertheless be confirmed for the intended jurisdiction.

- Domain registered through Gandi SAS; expiration date is 2026-10-12.
- Archive history contains 226 snapshots spanning 2018–2026, covering 9 tracked years.
- Hosted on AS13335 (Cloudflare).
- TLS certificate issued by WE1, validation level DV, valid to 2026-10-29.

What to Verify Next

Before institutional adoption, confirm the operating entity, applicable privacy terms, and any jurisdiction-specific registration requirements through the site's legal materials and authoritative registries. Independent confirmation of official support and contact channels is also appropriate for account administration.

- The homepage identifies the service as a beta platform, making current legal and operational documentation relevant.
- The site provides account registration and password-reset functions, supporting a routine account-governance review.
- External reputation checks found no malicious or suspicious detections, while the site remains within the observed global top-million traffic set.

Summary Verdict

LifeTimes presents as a legitimate, established, and trustworthy website with a low-risk operating profile and no observed impersonation, phishing, or malicious indicators. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The website is protected by Cloudflare CDN/WAF infrastructure, with observed traffic terminating at CDN edge servers rather than exposing the origin directly. This provides a meaningful defensive layer and reduces direct origin exposure, while remaining a mitigating infrastructure signal rather than independent proof of legitimacy.

Closing Assessment

Prospective users may proceed with normal account creation and service use, subject to ordinary organizational checks for legal documentation and data-handling requirements.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of lifetimes.co.

- The request stayed on lifetimes.co. It was not redirected to another domain. CLEAR
- Registration is published under Gandi SAS. CLEAR

- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2026-10-12. NOTED
- The earliest public archive of this site is from 2018-11-21. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about lifetimes.co at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
