Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2018.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

LINE TV is an established Taiwanese streaming service presenting dramas, anime, variety programming, live channels, VIP subscriptions, advertising opportunities, customer support, and account access for entertainment consumption.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent streaming-service model, with scheduled programming, live video, VIP upgrades, and ordinary account functions; the available page analysis found no phishing, credential-harvesting, malware, or financial-manipulation indicators. Normal login and standard account use are appropriate.

- The homepage provides streaming dramas, anime, variety shows, live channels, VIP subscriptions, and account registration.
- The page analysis recorded no red flags, no suspicious forms, and no untrusted form destinations.
- The domain was registered on 2018-08-16 and is approximately 7.97 years old.
- The site has 603 archive snapshots spanning 2018–2026, covering 9 tracked years.

Regulatory Verification Notes

The site presents terms, customer-support functions, and corporate identity information consistent with an established consumer streaming service. No regulated financial activity is indicated, and no licensing claim or registration number is presented for verification; this is a limited disclosure point rather than evidence of deception. The available external reputation checks were clean, and no relevant broker-reputation match was identified.

- The homepage identifies the service as LINE TV and provides entertainment programming, VIP access, and support-oriented account features.
- The site is hosted on AS16509 through Amazon.com, Inc.
- The domain registrar is GoDaddy.
- TLS is issued by Amazon RSA 2048 M01 at DV validation level and is valid through 2026-11-07.

What to Verify Next

For any commercial partnership or unusually sensitive transaction, confirm the applicable corporate or consumer-service registration through the relevant official registry and validate support channels using an independently sourced contact route. Standard viewing, login, and account-management activity may proceed normally.

- The homepage identifies advertising and commercial partnerships as part of the business model.

- The site provides terms and customer-support references for account and service use.
- The service offers VIP subscriptions, making the applicable purchase and cancellation terms the relevant verification point.

Summary Verdict

The website presents as a legitimate, established, and trustworthy streaming platform with strong identity continuity, clean reputation signals, and a coherent operating model. No scam, phishing, or impersonation contradiction was identified.

Infrastructure Integrity

The site is served from Amazon infrastructure with a valid Amazon-issued TLS certificate. This provides a sound transport-security and hosting baseline, although infrastructure protection is a mitigating control rather than independent proof of legitimacy.

Closing Assessment

Normal interaction, including account login, subscriptions, and standard account actions, is appropriate; higher-value commercial arrangements should follow ordinary procurement and registry checks.

Written analysis generated 2026-08-03 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of linetv.tw.

- The request stayed on linetv.tw. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy. CLEAR
- DNS for this domain is served by domaincontrol.com. NOTED
- The registration is paid up to 2029-08-16. CLEAR
- The earliest public archive of this site is from 2018-11-24. CLEAR
- It is hosted on AMAZON-02, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about linetv.tw at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
