Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2024.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Lisa Güzellik Salonları is a Beylikdüzü-based beauty salon website presenting in-person cosmetic and personal-care services, including laser epilation, skin treatments, massage, body-contouring procedures, and appointment-oriented contact information. The site states that the salon was established in 2015 and presents its apparent business model as customer payment for salon treatments rather than online financial or investment activity.

Scam/Impersonation Risk

No contradictions were observed. The homepage and service pages consistently present a local beauty business, with no login form, sensitive-data form, cryptocurrency functionality, financial solicitation, phishing indicator, or suspected brand impersonation. The named services—such as buz lazer epilasyon, Dermapen, G5 massage, Hydrafacial, needle-free mesotherapy, medical skin care, and algae peeling—are consistent with the stated salon model. Available external checks found no malicious or suspicious findings, and the site was not matched to the reviewed broker-reputation dataset. This supports an apparently legitimate, low-risk presentation, while the real-world operator identity remains independently unverified.

EVIDENCE

- The homepage identifies “Lisa Güzellik Salonu” in Beylikdüzü and describes salon services and customer-focused operations.
- The service pages list laser epilation, Dermapen, G5 massage, Hydrafacial, needle-free mesotherapy, medical skin care, and algae peeling.
- The site's interactive behavior showed no login form, hidden form, password submission, wallet activity, clipboard manipulation, or cloaking.
- The domain registration record shows creation on 2022-09-30 and an age of 3.89 years.

Regulatory Verification Notes

The reviewed content provides a service description, an “About” presentation, a gallery, and contact information, but does not display a formal license number, licensing authority, or clearly identified legal operator. That is a verification and disclosure gap rather than evidence of fraud. The site states that the salon began operating in 2015, while the registration record lists Crabs Media Dijital Pazarlama Ltd Şti as the registrant organization through ODTU Gelistirme Vakfi Bilgi Teknolojileri Sanayi Ve Ticaret Anonim Sirketi; these records provide context but do not independently prove the relationship between the website and the physical business. The available evidence remains consistent with an established, apparently legitimate local service website.

EVIDENCE

- The “About” page states that Lisa Güzellik Salonu was established in Beylikdüzü in 2015 and describes its staff, hygiene practices, and treatment focus.
- The contact page provides the site's customer-contact and appointment pathway, but the reviewed content does not show a license number or licensing authority.
- The domain registration record names ODTU Gelistirme Vakfi Bilgi Teknolojileri Sanayi Ve Ticaret Anonim Sirketi as registrar and Crabs Media Dijital Pazarlama Ltd Şti as registrant organization.
- The site's TLS certificate is issued by YR1, uses DV validation, and is valid to 2026-10-11T01:08:57+00:00.

What to Verify Next

Before credential or payment interactions, an independent check should confirm that the salon's published contact details reach the intended physical business and that any appointment, cancellation, refund, or prepaid-service terms are clear. For higher-value treatments, the applicable local permissions and practitioner credentials should be confirmed through the relevant official or professional channel rather than relying solely on the website. Payment should use a method offering clear consumer protection, and contact-channel authenticity should be confirmed through an independent route.

EVIDENCE

- The contact page is the primary source for appointment and customer-contact information.
- The “About” page is the primary source for the salon's claimed establishment history, staff, and hygiene statements.
- The reviewed site contains no online login or sensitive-data submission form, so any later request for such information should be assessed separately from the normal website workflow.

Summary Verdict

The website has a **high-trust, low-risk posture** and its content, behavior, registration continuity, and available reputation signals are consistent with an established, apparently legitimate local business. No scam, phishing, impersonation, or identity-contradiction signal was identified, but the operator's real-world identity is not independently verified.

Infrastructure Integrity

The site resolves directly to a single Turkish hosting endpoint rather than a CDN or WAF edge, so the hosting arrangement provides less intermediary-layer protection than a CDN-fronted deployment; this is an infrastructure observation, not evidence of malicious activity.

EVIDENCE

- Hosted on AS48678, TR-PENTECH-AS - Pentech Bilisim Teknolojileri Sanayi Ve Ticaret Limited Sirketi, TR.
- The resolved hosting IP is 188.132.189.16, located in Türkiye.
- Infrastructure resolution identified 1 unique IP, 0 edge IPs, and 1 likely origin IP.

Closing Assessment

Ordinary browsing and service enquiries are proportionate to the evidence. Independent confirmation of the merchant relationship, service terms, and payment protections should precede the provision of credentials or payment details.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	73/100
Identity verification confidence	37%

- Trusted social count=1

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of lisaguzellik.com.

- The request stayed on lisaguzellik.com. It was not redirected to another domain. CLEAR
- Registration is published under ODTU Gelistirme Vakfi Bilgi Teknolojileri Sanayi Ve Ticaret Anonim Sirketi. CLEAR
- DNS for this domain is served by mediacrabs.com, across 2 name servers. NOTED
- The registration is paid up to 2026-09-30. NOTED
- The earliest public archive of this site is from 2024-05-26. CLEAR
- It is hosted on TR-PENTECH-AS, from a server in TR. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about lisaguzellik.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
