

Is littleslimstrimshop.com a scam? TrustSniffer's high-risk assessment: 0/100

littleslimstrimshop.com

Verdict

0

OUT OF 100

CRITICAL RISK

littleslimstrimshop.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

Auto-generated directory index page showing file names and metadata. No forms, no transactions, minimal content.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

At a glance

The checks that decide most of this verdict.

Malware engines	14 flagged it VirusTotal	RISK
Google Safe Browsing	Not listed Google	CLEAR
Abuse reports on the host	0 reports AbuseIPDB; shared hosting inflates this count	NOTED
Domain age	8.4 years old Registered history	CLEAR
Web archive	Archived since 2018 Public history exists	CLEAR
Certificate	Encrypted connection Issued by YR1	NOTED

The page as captured

https://littleslimstrimshop.com/

What littleslimstrimshop.com served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2018.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

The website presents only an auto-generated “Index of /” directory listing with file names, modification metadata, and no substantive business content. Its apparent purpose is file hosting or directory access rather than a functioning commercial, financial, or account-based service, and no visible forms, transactions, or user-login functions are present.

Scam/Impersonation Risk

The site is associated with a confirmed blacklist finding and multiple malicious threat detections, creating a serious risk for any sensitive interaction despite the otherwise minimal and technically inactive homepage. The observed page does not itself display phishing forms, brand impersonation, or financial workflows, but its limited content cannot offset the external security findings. No identity contradiction or confirmed brand impersonation was established; the principal concern is the external malicious and blacklist evidence, not the page's visible functionality.

EVIDENCE

- Independent threat-intelligence assessment recorded 14 malicious and 1 suspicious detections for the domain, including detections from multiple major security vendors.
- The domain is recorded on external blacklist sources; the associated protective response was activated because malicious detections exceeded the relevant threshold.
- Domain registration telemetry records registration on 2018-03-14 and an age of 8.44 years.
- Historical telemetry records 34 archive snapshots spanning 2018–2026, with 9 years tracked.

Regulatory Verification Notes

The observed site surface provides no identifiable operator, legal-entity, licensing, or registration disclosure and consists only of a directory index. This is a material transparency gap for establishing who is responsible for the content or whether any regulated activity is intended, although the page does not visibly claim to provide a regulated financial service. The registration record identifies GoDaddy.com, LLC as registrar, but that administrative fact does not independently verify the site's operator. The available certificate and hosting records confirm technical deployment, not legal legitimacy.

EVIDENCE

- Homepage title and body text are limited to “Index of /”, “Name”, “Last modified”, “Size”, and “Description”; no legal or licensing information is displayed.
- The registration record lists GoDaddy.com, LLC as registrar and an expiration date of 2027-03-14.
- The site is served through AS22611, INMOTION - InMotion Hosting, Inc., US.
- Transport encryption uses a DV certificate issued by YR1, valid to 2026-10-09T08:31:43+00:00.

What to Verify Next

Before any interaction beyond passive inspection, an independent party should establish the intended operator through a trusted offline or previously verified channel and confirm that the domain is genuinely associated with that operator. Any proposed download should be validated separately using enterprise malware controls and file-specific scanning. Licensing or registration should be checked with the relevant jurisdictional registry if the site is presented as a commercial, financial, or professional service. Sensitive authentication and financial activity should remain suspended unless those checks produce consistent results.

EVIDENCE

- The homepage exposes a server directory rather than a documented service, leaving the intended operator and purpose to be independently established.
- The external reputation result requires a current, independent disposition check before the domain or its files are trusted.
- No licensing or registration number is presented on the observed site surface for independent comparison.

Summary Verdict

The overall posture is critical, with the available evidence supporting a clearly elevated risk of sensitive interaction and an unverified real-world identity. The site should not be treated as trustworthy for authentication, credential submission, downloads, or financial activity.

Infrastructure Integrity

Cloudflare CDN/WAF protection is present, and the observed address is an edge address rather than an independently visible origin. This provides a mitigating layer against direct exposure but does not establish legitimacy or neutralize the external reputation findings. The observed edge address is 104.152.110.64.

Closing Assessment

Enterprise users should isolate the domain from sensitive workflows and require independent operator validation and security review before permitting downloads or any authenticated or financial activity.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

- 01 Governance Risk

 - The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN
 - Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of littleslimstrimshop.com.

- The request stayed on littleslimstrimshop.com. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-03-14. NOTED
- The earliest public archive of this site is from 2018-08-08. CLEAR
- It is hosted on INMOTION, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about littleslimstrimshop.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
