

Is livaningo.co.mz a scam? TrustSniffer's high-risk assessment: 5/100

livaningo.co.mz

Verdict

5

OUT OF 100

CRITICAL RISK

livaningo.co.mz shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

Portuguese-language website for Livaningo, a Mozambican non-profit focused on environmental justice and community wellbeing. Contains contact details, project pages, news posts, partners, and a newsletter subscription.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

The page as captured

<https://livaningo.co.mz/>

What livaningo.co.mz served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2017.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

A Portuguese-language website presenting Livaningo as a Mozambican non-profit organisation focused on environmental justice, community rights, public wellbeing, projects, news, events, partner activity, contact information, and community-programme support.

Scam/Impersonation Risk

The site presents a coherent NGO-style information architecture, with organisational, project, news, contact, and newsletter content and no observed login form, wallet interaction, or deceptive on-page behaviour. However, this benign presentation is contradicted by multiple external malicious detections and confirmed blacklisting across two external sources. The domain's long registration history and continuing historical coverage do not outweigh those reputation findings. No separate brand-impersonation or conflicting legal-entity signal was identified, so the principal concern is the confirmed external threat reputation rather than an observed identity mismatch.

EVIDENCE

- The homepage presents Livaningo's organisational mission, environmental and community projects, news, events, contact content, and a newsletter form; no sensitive form was observed.
- External reputation checks recorded 6 malicious detections and a confirmed blacklist status.
- The domain was registered through MozDomains on 2016-06-14 and has an age of 10.19 years.
- Historical records run from 2017-05-04T11:20:12Z to 2026-06-06T10:48:00Z, covering 10 years.

Regulatory Verification Notes

The available pages describe a non-profit NGO and reference projects, partners, reports, and community activity, but the site does not present a license number or regulatory authorization. For an organisation soliciting or directing donations, the absence of a clearly stated legal registration or governing entity is a material transparency gap. The real-world operator identity remains unverified, and the legal or governance disclosures are unclear. These limitations should be considered separately from the external blacklist finding and do not constitute a legal determination about the organisation.

EVIDENCE

- The About and mission pages describe the organisation's purpose, values, projects, and areas of activity without displaying a verifiable legal registration number.
- The projects and partner sections name programme activities and counterparties but do not establish independently verified legal ownership.
- The site is served from AS16276, OVH - OVH SAS, FR.
- The site uses a DV TLS certificate issued by YR1, valid to 2026-10-09 13:22:38 UTC.

What to Verify Next

Before any donation, sensitive submission, or other consequential interaction, an institution should independently confirm the organisation's legal registration and the intended recipient of funds through the relevant Mozambican registry or a directly verified partner. Contact details published on the site should be validated through an independent channel rather than relying solely on the website. Any payment destination, beneficiary account, or fundraising request should also be reconciled with independently sourced organisational records.

EVIDENCE

- The Contact page provides telephone, email, and office-location fields that can support an out-of-band confirmation.
- The About, projects, and partner pages provide organisational and programme claims that can be cross-checked with named counterparties.
- The site's donation or support information should be matched against independently verified beneficiary details before funds are transferred.

Summary Verdict

The overall posture is **critical trust risk**. The site’s plausible NGO presentation is materially outweighed by confirmed external malicious detections and blacklist status, while the operator’s real-world identity remains unverified. Sensitive interaction should therefore be treated as unsuitable on the available evidence.

Infrastructure Integrity

CDN/WAF protection is a mitigating control for direct exposure, but it does not establish legitimacy and cannot offset the confirmed reputation risk. The observed infrastructure exposed an edge address while the origin was not observable during analysis.

EVIDENCE

- The observed edge address was 51.38.118.179 on AS16276, operated by OVH - OVH SAS, FR.
- CDN/WAF protection was detected, with 1 edge IP and 0 likely origin candidates.

Closing Assessment

The appropriate institutional posture is to restrict activity to passive review until independent organisational, contact, and payment-recipient checks have been completed; credentials, donations, and other sensitive actions should not be undertaken on the basis of the website alone.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%
• No on-site identity signals detected	

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of livaningo.co.mz.

- The request stayed on livaningo.co.mz. It was not redirected to another domain. CLEAR
- Registration is published under MozDomains. CLEAR
- DNS for this domain is served by palosrv.com, across 2 name servers. NOTED
- The registration is paid up to 2027-06-14. NOTED
- The earliest public archive of this site is from 2017-05-04. CLEAR
- It is hosted on OVH, from a server in FR. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about livaningo.co.mz at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
