- Public web-archive history exists since 2018.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Livecoins is a Brazilian Portuguese cryptocurrency news and information portal presenting coverage of Bitcoin, blockchain, DeFi, regulation, markets, security, educational guides, and related tools, with Livecoins Internet LTDA identified as its operator.

Scam/Impersonation Risk

No contradictions, phishing indicators, brand-impersonation signals, or malicious-reputation findings were observed. The homepage presents an editorial business model built around cryptocurrency news, market tools, educational guides, and consulting rather than promised investment returns; it also exposes no login or sensitive-data form. Coverage of assets such as Bitcoin, Ethereum, USDC, Tether, HYPE, QUBIC, Arbitrum, Stellar, Hyperliquid, and Tron is presented as editorial subject matter, not as a direct deposit-for-profit scheme.

EVIDENCE

- The homepage identifies the site as a news portal and provides price, DCA, satoshi-conversion, market-volume, wallet, exchange, and educational-guide areas.
- The homepage contains no login form, sensitive form, hidden form, wallet-drainer activity, or clipboard-hijacking behavior.
- The domain was registered on 2017-11-08 and is 8.74 years old.
- Historical coverage records 5,000 snapshots from 2018-09-06 through 2023-12-01, spanning 6 tracked years.

Regulatory Verification Notes

The site identifies Livecoins Internet LTDA in its corporate and legal materials and provides contact and policy information consistent with an established publishing operation. No financial-services license or registration number is presented in the supplied evidence; for a news and information portal, this is a limited disclosure point requiring contextual verification rather than evidence of deception. The available external reputation context is clean, and no broker-dataset match was identified.

EVIDENCE

- The legal and corporate materials identify Livecoins Internet LTDA as the operator.
- Served from AS13335 (CLOUDFLARENET - Cloudflare, Inc., US).
- TLS certificate issued by YE1 (DV), valid to 2026-09-11T20:44:29+00:00.

What to Verify Next

For any regulated service promoted through the site, confirm the relevant provider's authorization directly with the applicable Brazilian registry and validate counterparties independently before relying on commercial claims. Corporate details can likewise be cross-checked against the entity named in the site's legal materials.

EVIDENCE

- The site provides dedicated legal, policy, and contact materials for independent cross-checking.
- Editorial coverage and consultation or referral pathways should be distinguished from the regulatory status of any third-party service.

Summary Verdict

The site presents as a legitimate, established, and trustworthy publisher with strong identity continuity, substantive content, clean external reputation, and no observed impersonation or abuse indicators. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

Cloudflare CDN and WAF protection front the site, with observed traffic resolving through Cloudflare edge infrastructure alongside potential origin candidates. This provides a meaningful defensive control against direct exposure, while remaining a mitigating infrastructure signal rather than proof of legitimacy.

Closing Assessment

Normal browsing, login, and standard site use are appropriate; external services or consequential transactions encountered through published material should be assessed independently.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	79/100
Identity verification confidence	78%

- Trusted social count=3

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of livecoins.com.br.

- The request stayed on livecoins.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-11-08. CLEAR
- The earliest public archive of this site is from 2018-09-06. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about livecoins.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
