

Is In8-mobile.com a scam? TrustSniffer's high-risk assessment: 0/100

In8-mobile.com

Verdict

0

OUT OF 100

CRITICAL RISK

In8-mobile.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-22 by automated analysis. Classification confidence 55%.

What this site appears to be

In8-mobile.com appears to be an expired/parked domain listing with minimal text indicating availability for sale via Dynadot auctions. No service, login, forms, or transactional features are present.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

What In8-mobile.com served when TrustSniffer captured it on 2026-08-22. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2026.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

In8-mobile.com presents as a parked domain listing rather than an operating website: its homepage states that the domain may be for sale through Dynadot auctions and provides only generic resource, Terms of Service, and Privacy Policy links, with no active product, service, account, or transaction functionality.

Scam/Impersonation Risk

Contradictory risk signals are present. External security intelligence recorded 15 malicious detections, including detections associated with Fortinet, Kaspersky, and Sophos, and the domain is listed by two external blacklist sources. The current page itself is a minimal parked-domain notice with no login, payment, credential-collection, or impersonation features, so the observed page behavior does not demonstrate an active phishing flow; nevertheless, the confirmed blacklist status materially outweighs the benign presentation and warrants a security-forward posture for any sensitive interaction.

EVIDENCE

- External security assessment recorded 15 malicious detections and identified Fortinet, Kaspersky, and Sophos among the detecting providers.
- The domain was recorded as blacklisted by both VirusTotal-related intelligence and an external blacklist source.
- Registration record: created 2025-07-22T13:43:10Z; age 1.08 years.
- Archive record: 0 snapshots; first and last recorded observation 2026-03-03T10:50:03Z; 1 year tracked.

Regulatory Verification Notes

The available page does not identify an operating company, regulated service, license, or registration number. Because the site is presented as a domain-sale listing rather than an active financial or commercial service, there is no operating business model against which licensing can be assessed; any future use under this domain would therefore require independent confirmation of the responsible legal entity and applicable authorization. The site's identity remains unverified. A valid domain-validated TLS certificate and a named registrar are administrative and technical facts, not proof of ownership, authorization, or legitimacy.

EVIDENCE

- The homepage contains only a domain-sale notice and generic Terms of Service and Privacy Policy links; no license or regulatory registration is stated.
- The domain is registered through DYNADOT LLC.
- TLS certificate: issuer YR2; validation level DV; valid to 2026-10-20T17:22:39+00:00.

What to Verify Next

Any future operator should be confirmed independently through the relevant corporate registry and, where applicable, the regulator responsible for the proposed service. The registrar's auction or domain-status record should be checked before relying on any later content that appears under this domain. If the domain begins presenting account, payment, investment, or other sensitive workflows, those workflows should undergo a fresh security assessment before use, with contact channels confirmed through an independent route.

EVIDENCE

- The homepage identifies the domain as potentially available through a registrar auction, supporting independent confirmation of its current status.
- The available page contains no service workflow, sensitive form, or active transaction mechanism to validate.
- The legal links are generic site links and do not establish an accountable operating entity.

Summary Verdict

The overall posture is **critical trust risk**. The available evidence does not support treating this domain as an established or trustworthy endpoint for credentials, financial activity, or other sensitive interaction, and the real-world operator identity is not independently verified.

Infrastructure Integrity

The site resolves directly to hosting on AS133618, TRELLIAN-AS-AP operated by Trellian Pty. Limited in Australia, with no detected CDN or WAF layer and one identified likely origin address. The hosting arrangement is technically identifiable but provides no legitimacy assurance; the absence of an intermediary protective edge also offers limited mitigation against infrastructure-level exposure. Confirmed technical evidence: served from AS133618 (TRELLIAN-AS-AP - Trellian Pty. Limited, AU); TLS is DV-issued by YR2 and valid to 2026-10-20T17:22:39+00:00.

Closing Assessment

Activity should remain limited to passive viewing until the domain’s operator, intended purpose, and security reputation have been independently established; credentials, payment details, and other sensitive information should not be submitted.

Written analysis generated 2026-08-22 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

- 01 Governance Risk

 - The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of ln8-mobile.com.

- The request stayed on ln8-mobile.com. It was not redirected to another domain. CLEAR

- Registration is published under DYNADOT LLC. CLEAR
- DNS for this domain is served by abovedomains.com, across 2 name servers. NOTED
- The registration is paid up to 2027-07-22. NOTED
- The earliest public archive of this site is from 2026-03-03. CLEAR
- It is hosted on TRELLIAN-AS-AP, from a server in AU. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about ln8-mobile.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
