Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2023.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

LocalTalent.PH is a Philippines-focused employment marketplace that presents job listings, employer posting tools, candidate registration and login, career resources, and employer packages, with an apparent business model based on job-posting services, premium listings, subscriptions, or advertising.

Scam/Impersonation Risk

No phishing, impersonation, blacklist, malicious-content, or conflicting-identity indicators were observed. The site's homepage presents a coherent employment-marketplace purpose, provides ordinary navigation for employers and job seekers, and includes contact details rather than pressure-based financial or investment claims. Behavioral testing recorded substantial external activity and post-interaction page changes, but no non-whitelisted external submissions, hidden forms, credential exfiltration, wallet activity, clipboard manipulation, or cloaking; these observations do not establish a scam pattern. The domain's continuous observed presence and stable site content further support ordinary business continuity, although the real-world operator remains independently unverified.

EVIDENCE

- The homepage identifies LocalTalent.PH as a job-search service and provides employer, job-seeker, login, registration, and posting functions.
- The homepage displays 2026 jobs live, category and location search functions, and career-resource navigation.
- Registration continuity indicates a domain age of 3.63 years.
- Historical coverage records 79 archive snapshots spanning 2023–2026, with 4 years tracked.

Regulatory Verification Notes

The site has an apparent employment-marketplace identity, supported by dedicated About, Contact, FAQ, Terms, and Packages pages and a published Philippine business address and telephone number. The available evidence does not independently verify the operating entity, and the site does not present a claimed license or license number; this is a disclosure and verification matter rather than evidence of fraud. No third-party broker-dataset match was identified, and no external reputation signal supplied here contradicts the site's employment-business presentation. The available evidence is therefore consistent with an established, apparently legitimate website, while legal-entity attribution and any applicable business registration remain matters for independent confirmation.

EVIDENCE

- The About, Contact, FAQ, Terms, and Packages pages are present in the site's primary navigation.
- The homepage and Contact content publish the address “Suite 5a, 2nd Floor Yap Building, Ecoland, Quimpo Blvd, Talomo, Davao City, Philippines” and telephone number “0991 622 6441.”
- The site is served through AS394344, NETACTUATE – NetActuate, Inc., US.
- The site's TLS certificate is issued by YR1, uses Domain Validation (DV), and is valid to 2026-11-03T15:25:31+00:00.

What to Verify Next

Before credential or payment interactions, an organization should independently confirm the legal identity associated with the published address and telephone number, review the Terms and Packages pages for service obligations, cancellation and refund provisions, and validate that any employer or vacancy is genuine through an independent employer channel. Where a specific regulated service is later offered, the relevant Philippine registry or authority should be checked for the applicable registration or license. Contact details should be confirmed through an offline or independently sourced route rather than relying solely on the website.

EVIDENCE

- The Contact page supplies a physical address and telephone number suitable for independent business-identity confirmation.
- The Terms page and Packages page are available for review of contractual and payment conditions.
- The employer and job-seeker flows provide separate registration paths, allowing employer claims and vacancies to be checked against independent sources.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate employment website and supports a high-trust, low-risk posture for its stated marketplace purpose. No scam, impersonation, phishing, blacklist, or identity-conflict indicators were observed, but the operator’s real-world identity is not independently verified.

Infrastructure Integrity

The site is protected by Akamai CDN/WAF infrastructure, with observed IP addresses associated with CDN edge delivery rather than an identified origin server. This is a useful exposure-mitigation measure and supports infrastructure resilience, but it is not, by itself, proof of the operator’s legitimacy.

EVIDENCE

- Akamai CDN/WAF protection is identified in the hosting infrastructure.
- Two observed edge IP addresses were recorded: 192.138.189.151 and 45.79.222.138.
- No likely origin IP candidate was identified in the infrastructure observation.

Closing Assessment

Ordinary browsing and marketplace use are proportionate to the current assessment; before submitting credentials or making payments, the prospective user should complete independent checks of the operator, contractual terms, and payment protections.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of localtalent.ph.

- The request stayed on localtalent.ph. It was not redirected to another domain. CLEAR
- The earliest public archive of this site is from 2023-01-01. CLEAR
- It is hosted on NETACTUATE, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about localtalent.ph at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
