Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2017.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website is a Brazilian Logitech online store presenting gaming, productivity, audio, and computer peripherals in Brazilian reais, with direct-to-consumer and business purchasing, discounts, installment payments, customer support, and disclosed shipping, warranty, return, and payment arrangements.

Scam/Impersonation Risk

No phishing, impersonation, blacklist, or conflicting-identity indicators were observed. The homepage presents a coherent retail model built around Logitech mice, keyboards, headsets, webcams, microphones, presentation devices, and business equipment, with cart, account, payment, delivery, and support functions consistent with ordinary ecommerce. The site's reputation checks were clean, and its historical record supports continuity rather than suspicious repurposing.

- Homepage: product catalog, Brazilian-real pricing, customer account, cart, payment discounts, shipping information, and support functions.
- Domain registration: created 2013-07-22 and approximately 13.04 years old; expiry 2028-07-22.
- Web archive: 141 snapshots spanning 2017–2026, covering 10 tracked years.
- External reputation checks: zero malicious and zero suspicious detections, with no blacklist or phishing finding.

Regulatory Verification Notes

The site discloses the operating entity as E-CROWN GROUP FULL COMMERCE COMERCIO E REPRESENTAÇÃO LTDA and provides ecommerce policies covering payment, delivery, warranty, and returns. No financial or investment-regulatory authorization is claimed, which is consistent with the site's stated retail business model; the remaining point for institutional procurement is confirmation that the disclosed operator and commercial terms match the contracting entity.

- Legal and policy content: operating-company disclosure together with payment, shipping, warranty, and return information.
- Hosting telemetry: served from AS13335, Cloudflare.
- Transport security: TLS certificate issued by WE1 at DV validation level, valid through 2026-10-25.
- Site authority: mid-level page authority consistent with an established commercial web presence.

What to Verify Next

Before formal procurement or unusually large orders, confirm the disclosed operator against Brazilian corporate records, validate the applicable consumer and commercial terms, and independently confirm support and payment channels through the brand’s established corporate presence.

- Homepage: identifies the storefront as “Loja Oficial Logitech no Brasil.”
- Checkout and account areas: expose payment, order-status, and customer-account workflows.
- Policy content: provides shipping, warranty, return, and payment conditions for review.

Summary Verdict

The website presents as a legitimate, established, and trustworthy commercial storefront with strong convergence across its business content, operating history, technical controls, and external reputation. Normal interaction, including account login, account actions, and standard purchases, is appropriate.

Infrastructure Integrity

Cloudflare CDN and WAF protection front the site, with observed edge addresses 172.67.71.51, 104.26.9.203, and 104.26.8.203; the origin server was not exposed in the analysis. This reduces direct origin exposure and is a mitigating infrastructure control, not independent proof of legitimacy.

Closing Assessment

Standard browsing, login, account management, and purchasing may proceed normally, with ordinary commercial due diligence applied to high-value procurement.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of logitechstore.com.br.

- The request stayed on logitechstore.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2028-07-22. CLEAR
- The earliest public archive of this site is from 2017-01-23. CLEAR

- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about logitechstore.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
