- Public web-archive history exists since 2013.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This website is an online retail store operating under the Peter Paiva name, presenting materials and supplies for soap-making, candles, perfumes, fragrances, packaging, molds, tools, and related crafts. Its apparent business model is direct e-commerce sales of physical goods, with product listings, prices, PIX and installment payment options, customer support, order tracking, and store information.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent retail proposition with identifiable product categories, prices, checkout functionality, customer account and order-tracking features, and no detected phishing, impersonation, wallet-draining, cloaking, or hidden-form behavior. The site's content specifically covers soap and candle raw materials, essences and fragrances, containers, packaging, molds, and craft tools; this is a conventional physical-goods model rather than an abuse-prone investment or crypto offering. External reputation checks returned no malicious or suspicious detections, while the domain has a sustained historical presence and no observed repurposing or semantic drift. The available evidence therefore supports an apparently legitimate, low-risk retail website, while not independently proving the real-world operator's identity.

EVIDENCE

- The homepage is classified as e-commerce/product listing content and displays product categories, prices, PIX and installment-payment references, customer-account functions, checkout, and order tracking.
- The domain was registered on 2012-10-24 and is approximately 13.81 years old.
- Web-archive records show 148 snapshots spanning 2013-03-13 through 2026-06-23, covering 14 tracked years.
- Evaluated external reputation checks recorded 0 malicious detections, 0 suspicious detections, and no phishing or blacklist finding.

Regulatory Verification Notes

The website is an apparent retail merchant, not a site presenting itself as a regulated financial provider; consequently, the absence of a financial license claim is not itself evidence of deception. The supplied page content does not provide a license authority or registration number, so regulatory status should be treated as not independently established where a particular product or transaction would require one. The homepage includes a privacy-policy notice and identifies customer-support channels and store hours. A registration record

associates the domain with PETER PAIVA EXCLUSIVIDADES ARTESANAIS LTDA ME, but the available evidence does not independently verify that this entity operates the website. The technical and historical record nevertheless provides affirmative support for an established online presence.

EVIDENCE

- The homepage displays a privacy-policy notice and provides contact, customer-account, checkout, and order-tracking functions.
- The domain registration record lists PETER PAIVA EXCLUSIVIDADES ARTESANAIS LTDA ME as the owner and shows an expiration date of 2027-10-24.
- The site is served from AS19089, identified as Scala Data Centers, BR.
- The site uses a DV TLS certificate issued by YR2, valid through 2026-10-26T08:09:49+00:00.

What to Verify Next

Before credential or payment interactions, an organization should independently confirm that the merchant identity corresponds to the relevant corporate records, review the applicable return, refund, delivery, and privacy terms, and ensure that the selected payment method provides appropriate dispute and payment-protection mechanisms. Contact details and store information should be confirmed through an independent route rather than relying solely on a message or page reached from an unsolicited communication. Where a transaction involves a regulated product or service, the applicable Brazilian registry or licensing authority should be checked directly.

EVIDENCE

- The homepage exposes customer-account and checkout functions, making merchant-identity and payment-protection checks directly relevant before purchase.
- The homepage provides contact phone/WhatsApp information and store hours that can be cross-checked independently.
- The site's checkout includes local payment methods and installment options, creating a clear point for confirmation of refund and dispute protections.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website with a high-trust, low-risk posture and no observed scam or impersonation contradictions. The classification is well supported by converging site content, historical continuity, clean technical observations, and benign behavioral results, but the real-world operator connection remains independently unverified.

Infrastructure Integrity

The website is protected by Cloudflare CDN/WAF infrastructure, and the observed address was an edge endpoint rather than an identified origin server. This provides a meaningful mitigation against direct exposure of the hosting environment, but it is a protective control rather than proof of merchant legitimacy.

Closing Assessment

Normal browsing and ordinary account or transaction activity are proportionate to the assessed posture, subject to the standard independent merchant-identity, terms, and payment-protection checks expected before

credentials or funds are committed.

Written analysis generated 2026-08-11 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of lojapeterpaiva.com.br.

- The request stayed on lojapeterpaiva.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-10-24. CLEAR
- The earliest public archive of this site is from 2013-03-13. CLEAR
- It is hosted on AS19089, from a server in BR. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about lojapeterpaiva.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
