

Is loop-homes.com legit? TrustSniffer's high-trust assessment: 95/100

loop-homes.com

Verdict

95

OUT OF 100

HIGH TRUST

loop-homes.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Marketing/corporate site for LOOP HOMES student residences (Spanish/English). Descriptive content about residences, services, locations, phone contacts and calls-to-action for scheduling sessions. Cookie consent text present. No visible login, credential harvesting, or financial deposit workflows in the provided HTML.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2019.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

LOOP HOMES is a Spanish/English corporate website for student accommodation, presenting university residences, room and location information, residence services, and calls to schedule a session; its apparent business model is room booking and the provision of associated residency services.

Scam/Impersonation Risk

No contradictions were observed between the site's stated accommodation purpose and its observed content, and there were no indications of phishing, brand impersonation, credential harvesting, or malicious payment workflows. The homepage presents a conventional corporate accommodation model rather than an abuse-prone or deceptive interaction pattern. Behavioral testing observed external requests and post-interaction DOM changes, but no hidden forms, password submissions, wallet activity, clipboard manipulation, or cloaking; in context, these signals do not establish fraud. Available external checks found no malicious or suspicious detections, although reputation coverage was partial.

EVIDENCE

- The homepage describes LOOP HOMES as a student-residence business with booking-oriented calls to action and no login or sensitive-data form.
- The homepage and linked pages include ordinary corporate navigation for residences, privacy, cookies, and legal information; no impersonation indicators were identified.
- External reputation checks recorded no blacklist or malicious-site finding, with zero abuse reports attributed to the hosting address.

Regulatory Verification Notes

The available evidence is consistent with an established, apparently legitimate accommodation website, while the real-world operator identity is not independently verified. The legal-information pages provide a basis for ordinary disclosure review, but the supplied site analysis does not identify a licensing authority or registration number; for a residence-booking business, this is a transparency item to clarify rather than evidence of a scam. Domain registration through Dinahosting and valid transport encryption provide supporting continuity and infrastructure signals. The domain owner is privacy-protected, which is an administrative identity limitation rather than an identity contradiction. No matched third-party broker signal was identified.

EVIDENCE

- The domain was registered on 2019-02-21 and is approximately 7.5 years old; registrar: Dinahosting s.l.
- Hosted on AS42612 (DINAHOSTING-AS - DinaHosting S.L., ES).
- TLS certificate issued by YR1, validation level DV, valid to 2026-10-27.
- The site links to an aviso legal, privacy policy, and cookie policy, while no license authority or license number was identified in the supplied content.

What to Verify Next

Before a booking or payment commitment, the prospective customer should reconcile the operator named in the legal notice with an independently obtained company or property record, confirm any accommodation-related registration requirements with the relevant authority, and review cancellation, refund, deposit, and payment-protection terms. Contact details should also be confirmed through an independent route, and any payment should remain within a protected transaction process rather than an irreversible transfer.

EVIDENCE

- The site's aviso legal is the appropriate page for confirming the contracting entity and legal responsibilities.
- The booking and residence-information pages are the appropriate sources for checking room availability, fees, cancellation terms, and included services.
- The privacy and cookie pages should be reviewed to understand personal-data processing before submitting booking information.

Summary Verdict

The overall posture is high trust and low risk, and the available evidence is consistent with an established, apparently legitimate website. The principal residual uncertainty concerns independent confirmation of the real-world operator rather than any observed scam, phishing, or impersonation contradiction.

Infrastructure Integrity

The site resolves directly to a single likely origin and does not use a detected CDN or WAF edge layer. This provides less intermediary protection than a CDN-fronted deployment, but the resolved hosting configuration itself does not indicate malicious infrastructure.

Closing Assessment

Normal browsing is proportionate to the evidence; ordinary independent checks of the contracting entity, commercial terms, and payment protections should precede credential submission or financial commitment.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	76/100
Identity verification confidence	38%

- Trusted social count=2

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of loop-homes.com.

- The request stayed on loop-homes.com. It was not redirected to another domain. CLEAR
- Registration is published under Dinahosting s.l.. CLEAR
- DNS for this domain is served by dinahosting.com, across 4 name servers. NOTED
- The registration is paid up to 2027-02-21. NOTED
- The earliest public archive of this site is from 2019-04-01. CLEAR
- It is hosted on DINAHOSTING-AS, from a server in ES. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about loop-homes.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
