

Is luminouspower.com.pk a scam? TrustSniffer's high-risk assessment: 0/100

luminouspower.com.pk

Verdict

0

OUT OF 100

CRITICAL RISK

luminouspower.com.pk shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-09-22 by automated analysis. Classification confidence 55%.

What this site appears to be

Single-line under-construction landing page. No links, forms, or business details present.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

At a glance

The page as captured

<https://luminouspower.com.pk/>

What luminouspower.com.pk served when TrustSniffer captured it on 2026-09-22. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2024.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

luminouspower.com.pk is an under-construction website presenting only a brief placeholder message, with no visible products, services, pricing, business model, contact mechanism, or transactional functionality; its apparent purpose cannot presently be established from the site itself.

Scam/Impersonation Risk

The site presents a critical interaction risk because external reputation checks identify the domain as blacklisted, including 17 malicious and 3 suspicious detections. This is materially more significant than the otherwise limited page-level content, which contains no visible login form, payment flow, wallet connection, or other active abuse mechanism. No conflicting legal identities or on-page brand impersonation were identified, but the domain-level detections are sufficient to require a security-forward posture. The site's legitimacy and real-world operator identity remain unverified.

EVIDENCE

- The homepage contains only the text “Website Under Construction” and provides no business or identity information.
- External reputation checks recorded 17 malicious detections and 3 suspicious detections, with a confirmed blacklist status.
- The domain was registered on 2023-05-10 and has an observed age of 3.37 years.

Regulatory Verification Notes

The available page does not disclose a legal entity, business activity, licensing authority, registration number, or governing terms. This is a substantive transparency gap because the site offers no information against which its operator or regulatory status could be assessed; it should not be interpreted as proof of a scam in isolation. A third-party broker-reputation dataset returned no match, but that result is contextual only and does not establish licensing or legitimacy. The transport certificate and hosting arrangement confirm technical operation, not the identity or authorization of the operator.

EVIDENCE

- The homepage has no links, forms, contact details, legal disclosures, or stated business model.
- The site is hosted on AS31898, identified as ORACLE-BMC-31898 — Oracle Corporation, US.
- TLS uses issuer YR1 with domain validation (DV), valid to 2026-11-26.
- No broker-profile match was returned by the available third-party reputational context.

What to Verify Next

Before any sensitive interaction, an independent source should confirm the operator’s legal identity, business purpose, and any applicable authorization with the relevant corporate or regulatory registry. Official contact channels should be confirmed through an independently obtained source rather than relying solely on information that may later appear on the site. Until those checks are complete, activity should remain limited to passive observation, with no login, credential submission, payment, or other financial interaction.

EVIDENCE

- The homepage supplies no on-site contact channel or linked legal material for independent validation.
- The observed page contains no forms or transactional flow through which an account or payment interaction could be assessed.
- The site is currently presented as a coming-soon or under-construction landing page rather than an operational service.

Summary Verdict

The overall posture is critical, with the available evidence unable to establish a trustworthy operating identity and with domain-level threat detections outweighing the limited benign characteristics of the observed page. Sensitive interaction is not appropriate on the basis of the current evidence.

Infrastructure Integrity

The domain resolves directly to one likely origin IP, with no detected CDN or WAF edge layer and no identified protective infrastructure mitigating origin exposure. This describes the hosting posture only and does not independently determine whether the operator is legitimate.

Closing Assessment

Restrict activity to passive viewing until independent identity, authorization, and contact-channel checks produce corroborating evidence; credentials and financial information should not be submitted in the interim.

Written analysis generated 2026-09-22 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

- 01 Governance Risk

 - The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of luminouspower.com.pk.

- The request stayed on luminouspower.com.pk. It was not redirected to another domain. CLEAR
- DNS for this domain is served by vividvisionz.net, across 2 name servers. NOTED
- The registration is paid up to 2027-05-10. NOTED
- The earliest public archive of this site is from 2024-08-25. CLEAR
- It is hosted on ORACLE-BMC-31898, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about luminouspower.com.pk at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
