

# Is lumiprojekt.pl a scam? TrustSniffer's high-risk assessment: 0/100

lumiprojekt.pl

## Verdict

0

OUT OF 100

CRITICAL RISK

lumiprojekt.pl shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

Polish-language architecture/design studio site listing projects and providing contact information; includes cookie consent UI. No financial offers or login flows present.

## Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

## At a glance

## The page as captured

---

<https://lumiprojekt.pl/>

What lumiprojekt.pl served when TrustSniffer captured it on 2026-08-21. The page may look different now.

## Key findings

---

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2023.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

## Full analysis

---

### Security Alert

Kaspersky flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

The website is a Polish-language architecture and design studio portfolio presenting project listings, contact information, and cookie-consent controls. Its apparent business model is client commissions, project contracts, and lead generation rather than e-commerce, investment solicitation, or account-based services.

### Scam/Impersonation Risk

The site's visible content does not show obvious phishing mechanics, credential-harvesting forms, financial offers, or brand impersonation; the homepage contains no login form or sensitive submission flow. However, this benign presentation is outweighed by confirmed external threat detections and blacklist records associated with the domain. The available evidence therefore supports a **critical sensitive-interaction risk posture**, even though the site itself presents as a conventional design portfolio. No separate identity contradiction or direct impersonation finding was observed.

#### EVIDENCE

- The homepage is classified as a portfolio/studio website and contains no login form, hidden form, password-external form, or sensitive form.
- External reputation checks recorded 11 malicious detections, including a Tier-1 threat detection.
- The domain is recorded on external blacklist sources; the blacklist condition is confirmed, while Google Safe Browsing was not malicious.

#### Regulatory Verification Notes

The site's apparent architecture-studio business model does not itself present a regulated financial service requiring the disclosures associated with investment or trading platforms. Nevertheless, the available legal and identity material does not independently verify the real-world operator, and the on-page disclosure position is unclear. No licensing claim or license number is presented in the supplied site evidence. This is a verification gap rather than, by itself, proof of fraud; the decisive concern remains the external threat and blacklist evidence described above.

#### EVIDENCE

- The site title is "Lumi Projekt – Lumi," with page topics covering architecture projects, contact, about, and privacy/cookie controls.
- The domain was registered on 2021-05-14 and is approximately 5.27 years old; registration is through LH.pl Sp. z o.o.
- TLS uses issuer YE1 with DV validation and is valid until 2026-10-28T19:05:51+00:00.

#### What to Verify Next

Before any commercial engagement, independently confirm the studio's legal entity, operating address, and contractual counterparty through an official Polish business registry or an independently sourced professional channel. Any proposed contract or payment should identify the legal recipient, include deliverables and refund or termination terms, and use payment protections appropriate to the transaction. Contact details should be confirmed through an independent offline route rather than relying solely on the website.

#### EVIDENCE

- The site presents project work and contact-led client engagement, with no on-page e-commerce or investment workflow.
- The supplied analysis does not independently verify the operator's real-world identity.
- The site's legal and identity disclosure state is unclear.

#### Summary Verdict

The overall posture is **critical trust risk** with a specific concern around sensitive interaction. The site's ordinary portfolio presentation does not resolve the materially adverse external reputation evidence, and operator identity remains unverified.

## Infrastructure Integrity

The site resolves directly to a single hosting address rather than a CDN or WAF edge, with no trusted CDN detected. It is hosted in Poland by LHPL - LH.pl Sp. z o.o. on AS203417; this is a concrete infrastructure fact, not evidence of operator legitimacy, and the absence of an intermediary protection layer provides limited mitigation.

## Closing Assessment

A prospective counterparty should defer login, credential submission, or financial commitments until the operator and transaction arrangements have been independently authenticated and the external threat status has been resolved.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

## What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF\_WHOIS\_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.

Analysis engine signal:direct\_threat

External reputation rule:EXT\_BLACKLIST\_CRITICAL

## Identity verification

|                                  |            |
|----------------------------------|------------|
| Status                           | UNVERIFIED |
| Identity score                   | 30/100     |
| Identity verification confidence | 50%        |

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

## What TrustSniffer observed

First-party facts recorded during the assessment of lumiprojekt.pl.

- The request stayed on lumiprojekt.pl. It was not redirected to another domain. CLEAR
- Registration is published under LH.pl Sp. z o.o.. CLEAR
- DNS for this domain is served by lh.pl, across 2 name servers. NOTED

- The registration is paid up to 2027-05-14. NOTED
- The earliest public archive of this site is from 2023-02-23. CLEAR
- It is hosted on LHPL, from a server in PL. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about lumiprojekt.pl at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
