Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

Lyon Capitale is an established French regional news publisher covering Lyon and the Auvergne-Rhône-Alpes region through free online journalism, a print magazine, digital subscriptions, subscriber-only articles, and a daily video program.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents coherent regional-news content across politics, justice, public safety, culture, health, science, and local affairs, with no phishing indicators, deceptive financial mechanics, brand impersonation, or malicious reputation findings. The site's normal account and subscription functions are consistent with its stated media business.

- Registered 2006-10-20 and approximately 19.79 years old; registrar: CSC CORPORATE DOMAINS INC.
- The homepage is identified as a news website and contains substantial Lyon and regional editorial content.
- The homepage showed no sensitive form, hidden form, or untrusted submission destination.
- External reputation checks recorded zero malicious and zero suspicious detections.

Regulatory Verification Notes

The site operates as a media publisher rather than presenting a financial-services offering. The supplied pages include legal information, contact details, subscription services, and editorial content, but no third-party regulatory authorization is established; this is a limited disclosure note, not an identity contradiction. The absence of a matched broker profile provides additional neutral contextual support.

- The site's business model is based on magazine sales, digital subscriptions, and subscriber-only editorial content.
- Hosted on AS16276 (OVH - OVH SAS, FR).
- TLS certificate issued by YR2, using DV validation, valid to 2026-09-25.
- Legal and contact information are present in the site's publisher materials.

What to Verify Next

For formal procurement or paid-service onboarding, confirm the current publisher details and subscription, billing, and cancellation terms through the site's legal and subscription pages. Routine account login and standard use are appropriate.

- Subscription access and subscriber-only articles are exposed through the site's account and subscription areas.
- Publisher and contact information are available in the site's legal and contact materials.

Summary Verdict

The evidence supports a legitimate, established, and trustworthy regional media business with a coherent purpose, clean observed behavior, and no identified impersonation or malicious indicators. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The website is protected by a CDN/WAF layer, with the observed edge address served through AS16276 (OVH - OVH SAS, FR); the origin was not directly observable. This protective architecture mitigates exposure of the underlying service but is treated as a supporting control rather than proof of legitimacy.

Closing Assessment

The site is suitable for normal editorial access, account use, and subscription activity, subject to ordinary organizational review of commercial terms.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

About this assessment

A trust score summarises the evidence TrustSniffer could collect about lyoncapitale.fr at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
