

Is m102y.xyz a scam? TrustSniffer's high-risk assessment: 0/100

m102y.xyz

Verdict

0

OUT OF 100

CRITICAL RISK

m102y.xyz shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

Page content promotes a BET365-branded gambling platform with registration/login prompts, app download QR codes, live sports and betting markets. Contains sponsorship and partner claims; user action required to register and wager.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

The page as captured

<https://m36r.top/home>

What m102y.xyz served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: less than 1 year (registration continuity).
- Public web-archive history exists since 2025.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

m102y.xyz presents a BET365-branded online sports-betting and casino service, offering visitor registration and login, live sports markets, app downloads through QR codes, sponsorship claims, and wagering funded by user deposits.

Scam/Impersonation Risk

The site presents a direct sensitive-interaction risk. External security telemetry recorded malicious detections and confirmed the domain as **blacklisted** by multiple external sources; this is materially inconsistent with the site's "safe" and "trusted" promotional language. The homepage also encourages registration, application download, and wagering while providing limited evidence supporting the high-stakes value flow. No separate brand-impersonation or identity-inconsistency finding was recorded, but the external threat detections and blacklist status independently warrant a security-forward posture.

EVIDENCE

- The homepage is titled “welcome-BET365” and promotes registration, login, live betting, app downloads, and user wagering.
- External reputation assessment recorded 16 malicious detections, including detections associated with Fortinet and Sophos.
- The domain was confirmed on external blacklists, with the protective response mechanism activated following the malicious detections.

Regulatory Verification Notes

The site's legal and regulatory presentation is insufficient for a gambling service that requests deposits. The homepage contains references to an operating licence, partner platforms, payment partners, responsible gaming, and sponsorships, but the supplied content does not provide a named licensing authority or licence number. The operator's real-world identity remains unverified, so the BET365 branding and sponsorship statements should be treated as on-site claims rather than proof of affiliation. No matching broker or regulatory-context record was identified in the available third-party dataset; this is contextual only and does not establish authorisation.

EVIDENCE

- The homepage footer includes “运营牌照” (“operating licence”), “合作平台商” (“partner platform”), “合作支付商” (“payment partner”), and “游戏责任” (“gaming responsibility”), without a named authority or licence number.
- The site's transport infrastructure is associated with registration through Gname.com Pte. Ltd.; the domain was registered on 2025-08-30 and is approximately 0.97 years old.
- Hosted on AS135357, PCCW22-HK – HONG KONG KOWLOON TELECOMMUNICATIONS CO.,LIMITED, HK.

What to Verify Next

Before any interaction, an independent party should confirm whether the named BET365 operator and the specific domain are listed by the relevant gambling regulator, and whether the claimed league, ambassador, and payment-partner relationships are confirmed through independently obtained official channels. The domain should not be used for account creation, application installation, credential submission, deposits, or wagering unless those checks produce consistent results. Any payment-related investigation should use the payment provider's independent dispute and fraud-reporting channels rather than contact details supplied only by the site.

EVIDENCE

- The homepage requires registration and login for the promoted betting service.
- The homepage provides QR-code application download instructions, creating an additional software-distribution path requiring independent validation.
- The page-level assessment identifies deposit-before-service, opaque value flow, and a high-stakes evidence gap.

Summary Verdict

The available evidence supports a **critical trust posture** with elevated risk for sensitive interaction. The site's commercial presentation does not overcome the confirmed external security contradictions, and its operator identity and regulatory standing are not independently established.

Infrastructure Integrity

The site resolves directly to infrastructure operated by PCCW22-HK in Hong Kong, with no trusted CDN or WAF identified and two likely origin IP addresses observed. This provides a concrete hosting path but no meaningful legitimacy assurance; infrastructure protection cannot offset the external reputation findings.

Closing Assessment

Enterprise users should block sensitive interaction with this domain pending independent confirmation of the operator, regulatory authorisation, and software and payment-channel integrity.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

01 Governance Risk

- The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN
- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- The page made background requests to destinations TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_XHR
- Most of what the page loaded came from other domains rather than from this one.
Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_HIGH
- The page exchanged network traffic with destinations TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_TRAFFIC
- The structure of the page changed sharply while it was loading.
Behaviour in a sandbox rule:BEHAV_DOM_DENSITY_SPIKE
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of m102y.xyz.

- The request for m102y.xyz ended on m36r.top, a different domain. WATCH
- Registration is published under Gname.com Pte. Ltd.. CLEAR
- DNS for this domain is served by 1111343.com, across 4 name servers. NOTED
- The registration is paid up to 2026-08-30. NOTED
- The earliest public archive of this site is from 2025-10-30. CLEAR
- It is hosted on PCCW22-HK, from a server in HK. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about m102y.xyz at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
