

Is macjakarta.com legit? TrustSniffer's high-trust assessment: 90/100

macjakarta.com

Verdict

90

OUT OF 100

HIGH TRUST

macjakarta.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 50%.

What this site appears to be

Japanese-language domain parking page stating macjakarta.com is for sale, linking users to tools to inspect past usage (Wayback, WHOIS, VirusTotal) and a domain marketplace.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

What macjakarta.com served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2001.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

macjakarta.com is a Japanese-language domain-parking page presenting the domain as available for purchase. Its apparent business model is domain resale, supplemented by informational or referral links to services that inspect prior website use, registration details, traffic history, and security reputation.

Scam/Impersonation Risk

No contradictions were observed: there is no indication of phishing, brand impersonation, malicious content, or conflicting legal identities. The homepage clearly identifies the domain as being for sale and does not present a login, payment, wallet-connection, or sensitive-data collection workflow. Available external reputation evidence is clean within its evaluated coverage, supporting a low-risk interpretation of the current landing page rather than an active scam operation.

EVIDENCE

- The homepage states that the domain is for sale and directs visitors to a domain marketplace.
- The homepage contains no login form, hidden sensitive form, or password-submission mechanism.
- External checks recorded no malicious result, no blacklist hit, and zero abuse reports; reputation coverage was partial.
- Historical records show first observation on 2001-05-07 and last observation on 2026-02-10, with 26 years tracked and no suspicious repurposing identified.

Regulatory Verification Notes

The page describes a domain-sale service, not a financial, brokerage, or other regulated offering, and makes no licensing claim. The page does not independently establish the real-world identity of the seller or operator; consequently, its legitimacy is best described as apparent and evidence-consistent rather than proven. The absence of a dedicated corporate, seller, or transaction-policy disclosure is a transparency point relevant to any eventual domain purchase, not evidence of a scam. A broker-reputation dataset produced no matching result.

EVIDENCE

- Registration records identify GMO Internet Group, Inc. d/b/a Onamae.com as registrar; the domain was registered on 2023-04-29 and is recorded as approximately 3.31 years old.
- The homepage identifies the asset as a domain for sale and provides links to registration-history and marketplace information rather than regulated financial services.
- No separate legal, licensing, or corporate-information page was identified in the supplied site content.
- No matching broker record was returned.

What to Verify Next

Before purchasing the domain or providing credentials or payment details to a linked marketplace, the prospective counterparty should independently confirm the seller's legal identity, ownership authority, transfer process, escrow arrangements, applicable return terms, and payment protections. Contact channels and marketplace destinations should be confirmed through an independent route rather than relying solely on page links.

EVIDENCE

- The homepage directs prospective buyers to a domain marketplace for detailed sale information.
- The homepage provides informational links for WHOIS, historical-use, traffic, and security checks but does not itself set out transaction terms.
- No sensitive form or payment workflow was present on the observed page.

Summary Verdict

The available evidence supports a **high-trust, low-risk posture** for the website in its current domain-parking form. It appears legitimate as a domain-sale landing page, while the operator or seller's real-world identity remains independently unverified.

Infrastructure Integrity

The site resolves directly to infrastructure operated by GMO-I-R2 - GMO Internet, Inc. in Japan, with no trusted CDN or WAF detected and one likely origin endpoint observed. This is a straightforward hosting arrangement rather than a protective infrastructure signal; the site nevertheless presents stable transport encryption through a recognized certificate issuer.

EVIDENCE

- Served from AS58791, GMO-I-R2 - GMO Internet, Inc., JP.
- TLS certificate issued by ZeroSSL RSA DV SSL CA 2 with DV validation, valid to 2026-11-18.
- Infrastructure resolution identified one unique IP and one likely origin IP, with no CDN detected.

Closing Assessment

Ordinary browsing of the landing page is proportionate to the assessed posture; any purchase, credential submission, or payment interaction should follow the independent seller-identity and transaction-protection checks described above.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of macjakarta.com.

- The request stayed on macjakarta.com. It was not redirected to another domain. CLEAR
- Registration is published under GMO Internet Group, Inc. d/b/a Onamae.com. CLEAR
- DNS for this domain is served by rakko.zone, across 2 name servers. NOTED
- The registration is paid up to 2027-04-29. NOTED
- The earliest public archive of this site is from 2001-05-07. CLEAR
- It is hosted on GMO-I-R2, from a server in JP. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about macjakarta.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
