- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2021.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Macropay is a Mexican retail ecommerce website presenting electronics, mobile phones, motorcycles, electric bicycles, appliances, accessories, promotions, store locations, customer support, and consumer-credit purchasing with fixed weekly payments.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent retail model, identifiable product categories, physical-branch navigation, support, contact options, and corporate policies; it does not show phishing, brand-impersonation, deceptive investment, or cryptocurrency indicators. External reputation checks were clean, with no malicious or suspicious detections, no blacklist hit, and no broker-dataset match.

- The homepage identifies Macropay as an ecommerce retailer and offers products through consumer credit and weekly payments.
- The homepage includes “Sucursales,” customer-support pathways, contact information, and corporate-policy content.
- The monitored homepage loaded successfully with no hidden forms, wallet activity, or password submission to an untrusted destination.

Regulatory Verification Notes

The site presents itself as a commercial retailer rather than a regulated financial-services provider. The available evidence does not establish a claimed license or registration number, so any financing or credit-related obligations should be assessed under the applicable Mexican consumer and financial-protection framework. This is a verification point, not an indicator of fraud. The domain is registered through Gandi SAS to CELULARES Y ACCESORIOS DEL SURESTE SA DE CV, while its established operating footprint and clean reputation support the site’s identity.

- Domain registration: 2019-09-23; age 6.87 years; expiry 2028-09-23; registrar Gandi SAS.
- Archive history: 69 snapshots spanning 2021-08-13 to 2026-05-13, covering 6 years.
- Hosted on AS14618 (AMAZON-AES — Amazon.com, Inc., US).
- TLS certificate issued by Go Daddy Secure Certificate Authority - G2, DV validation, valid to 2027-03-23.

What to Verify Next

Before material credit commitments, confirm the applicable financing terms, payment schedule, cancellation rights, and consumer disclosures in the site’s contractual documentation. Licensing or registration claims, if relevant to a specific financial product, should be confirmed with the appropriate Mexican authority or registry, and official contact channels should be validated through an independent route.

- The homepage offers credit processing using an INE and states that applications can be completed in under ten minutes with fixed weekly payments.
- The credit-validation form requests an SL number and date of birth.
- Product pages display retail prices and promotional pricing for consumer goods.

Summary Verdict

Macropay presents as a legitimate, established ecommerce retailer with a coherent business model, sustained operational presence, and no observed scam or impersonation contradictions. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The website is protected by AWS CDN/WAF infrastructure, with observed traffic resolving to an AWS edge address and no origin candidate identified. This architecture mitigates direct exposure of the underlying service, but remains a supporting control rather than proof of legitimacy.

Closing Assessment

Standard browsing, account use, and ordinary retail transactions are appropriate, with contractual and regulatory terms reviewed before entering significant financing commitments.

Written analysis generated 2026-08-03 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of macropay.mx.

- The request stayed on macropay.mx. It was not redirected to another domain. CLEAR
- Registration is published under Gandi SAS. CLEAR
- DNS for this domain is served by co.uk, across 4 name servers. NOTED

- The registration is paid up to 2028-09-23. [CLEAR](#)
- The earliest public archive of this site is from 2021-08-13. [CLEAR](#)
- It is hosted on AMAZON-AES, from a server in US. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about macropay.mx at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
