

Is magadanmedia.ru legit? TrustSniffer's high-trust assessment: 100/100

magadanmedia.ru

Verdict

100

OUT OF 100

HIGH TRUST

magadanmedia.ru appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-11 by automated analysis. Classification confidence 75%.

What this site appears to be

MagadanMedia — a regional Russian news portal covering Magadan and surrounding areas with sections for news, photos, videos, blogs and local projects. The site asks users to log in for personalized content and includes editorial and community submissions. Footer notes financial support from a government ministry.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2013.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

MagadanMedia.ru is a regional Russian news and media portal focused on Magadan and the surrounding Kolyma region. It presents news, politics, society, business, photos, videos, blogs, polls, events, local projects, and community-submitted material, with account login and contact-submission functionality. Its apparent business model is content-driven publishing supported by advertising, sponsored material, possible classifieds, and stated financial support from a Russian government ministry.

Scam/Impersonation Risk

No contradictions were observed. The homepage content is internally consistent with a regional news publication, and the site's historical record shows continuity of the same blog/news purpose rather than suspicious repurposing. The available reputation checks found no malicious or suspicious detections, no phishing or impersonation indicators, and no abuse reports. The site appears established and apparently legitimate on the available evidence, although the real-world operator identity is not independently verified.

EVIDENCE

- The homepage identifies MagadanMedia as a regional news portal and provides sections for news, politics, society, business, photos, videos, blogs, polls, and local projects.
- The domain was registered in 2010 and is approximately 15.85 years old through the observed registration record.
- Historical records contain 1,155 snapshots spanning 2013–2026, covering 14 tracked years, with no detected change from the regional news/blog category.
- External reputation checks recorded 0 malicious detections, 0 suspicious detections, and no blacklist or phishing finding.

Regulatory Verification Notes

The website presents itself as a media publisher rather than a financial or regulated-services provider. Its footer states that MagadanMedia operates with financial support from the Ministry of Digital Development, Communications and Mass Media of the Russian Federation; this is an on-site funding statement, not independent proof of operator identity or regulatory status. The reviewed content does not present a licensing

claim or license number, which is a disclosure item for ordinary verification rather than evidence of misconduct. The domain is registered through RU-CENTER-RU, and its transport security and hosting identity provide supporting technical integrity signals.

EVIDENCE

- The domain registrar is RU-CENTER-RU; the recorded creation date is 2010-10-09 and the expiration date is 2026-10-09.
- The site is served on AS57724 by DDOS-GUARD - DDOS-GUARD LTD, RU.
- The TLS certificate is issued by YR1 at DV validation level and is valid to 2026-09-02.
- The homepage footer states that the site operates with financial support from the Russian Ministry of Digital Development, Communications and Mass Media.

What to Verify Next

An organization considering formal engagement should independently confirm the publisher's legal entity and any applicable media-registration status through the relevant Russian registry or official institutional channel. The About and Contacts areas should be checked for consistent publisher details and official communication routes, with any material commercial arrangement documented separately before execution.

EVIDENCE

- The homepage provides navigation to "About," "Contacts," "Advertising," and "Vacancies," identifying the principal areas for entity and engagement review.
- The site describes itself as a regional online news and media publication, establishing the relevant verification context as publishing rather than financial services.
- The footer contains a government-support statement that can be independently confirmed through an appropriate official source.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website and supports a high-trust, low-risk posture for its stated media function. No scam, phishing, impersonation, or other contradictory signal was observed, while the operator's real-world identity remains independently unverified.

Infrastructure Integrity

Cloudflare CDN/WAF protection is present, with observed traffic associated with DDOS-GUARD infrastructure and no origin server candidate exposed in the analysis. This layered edge protection is a mitigating security measure, but it is not, by itself, proof of legitimacy.

Closing Assessment

Ordinary browsing is proportionate to the assessed posture; before credential or payment interactions, standard independent checks of the counterpart's identity, applicable consumer protections, and official contact routes should still be completed.

Written analysis generated 2026-08-11 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of magadanmedia.ru.

- The request stayed on magadanmedia.ru. It was not redirected to another domain. CLEAR
- Registration is published under RU-CENTER-RU. CLEAR
- DNS for this domain is served by com., across 2 name servers. NOTED
- The registration is paid up to 2026-10-09. NOTED
- The earliest public archive of this site is from 2013-05-22. CLEAR
- It is hosted on DDOS-GUARD, from a server in RU. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about magadanmedia.ru at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
