

Is marcelastudart.com.br a scam? TrustSniffer's high-risk assessment: 5/100

marcelastudart.com.br

Verdict

5

OUT OF 100

CRITICAL RISK

marcelastudart.com.br shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

Website for Clínica Marcela Studart, a dermatology clinic in Rio de Janeiro describing services, technologies used, testimonials and contact information for two clinic sites. No indications of financial services, crypto, or credential-harvesting behavior.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What marcelastudart.com.br served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2010.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

This website presents Clínica Marcela Studart, a Rio de Janeiro dermatology and aesthetic-treatment clinic offering consultations and procedures at physical locations in Ipanema and Barra da Tijuca, with treatment information, technology descriptions, testimonials, and appointment-oriented contact content.

Scam/Impersonation Risk

The site's own pages appear consistent with a local medical clinic and do not show credential-harvesting, login, financial-service, crypto, or other abuse-oriented behavior. However, this benign presentation is outweighed by a confirmed external blacklist designation and multiple malicious detections associated with the domain. No on-page impersonation, phishing form, or conflicting legal identity was observed, but the external reputation evidence creates a material risk for sensitive interaction and prevents the site from being treated as safe for credentials, account access, or transactions. No suspicious contact-email anomaly was identified.

EVIDENCE

- External reputation telemetry recorded 4 malicious and 1 suspicious detections, with the domain also present on external blacklist sources.
- The homepage is categorized as a business/clinic page and contains no login form, hidden form, sensitive form, or untrusted form destination.
- The domain registration record shows creation on 2008-11-22 and an age of 17.76 years.

Regulatory Verification Notes

The available site content describes dermatological and aesthetic services and identifies two clinic locations, but the operator's real-world identity remains independently unverified. The registration record names Marcela Studart, which is an administrative association rather than proof that the website is controlled by the operating medical entity. The site does not claim a professional or institutional license and does not provide a license number; this is a regulatory-disclosure gap requiring independent confirmation, not by itself evidence of a scam. The absence of a matching broker record provides no regulatory endorsement.

EVIDENCE

- The homepage identifies "Clínica Marcela Studart" and presents dermatology, aesthetic, injectable, and technology-based treatment categories.
- The site's business content describes physical clinic operations in Ipanema and Barra da Tijuca and paid consultations or treatments.
- Hosting resolves through AS47583, AS-HOSTINGER — Hostinger International Limited, CY.
- The site uses a DV TLS certificate issued by YE2, valid to 2026-10-16T22:27:36+00:00.

What to Verify Next

Before any sensitive interaction, an institution should independently confirm that the clinic, named practitioner, locations, and applicable professional authorizations correspond through authoritative Brazilian medical or business registries. Contact details should be validated through an independently sourced channel rather than relying solely on information presented by the website. Any appointment deposit or payment request should be checked against the clinic's verified legal payee and subjected to payment-provider protections.

EVIDENCE

- The homepage provides the clinic name, service descriptions, patient testimonials, and location-related contact content for comparison against independent records.
- The site links to an Instagram presence identified as "clinicamarcelastudart," which can be cross-checked through an independently obtained official reference.
- The available content includes no license number or licensing authority for independent confirmation.

Summary Verdict

The overall posture is **critical trust risk**. Although the website's presentation is coherent with a legitimate local clinic and its observed page behavior is non-abusive, the confirmed blacklist status and malicious external

detections are decisive contradictions. The site should not be regarded as trustworthy for sensitive interaction or as independently verified evidence of the claimed operator.

Infrastructure Integrity

The site is hosted directly on Hostinger infrastructure in Ukraine, with no CDN detected and four likely origin IP addresses exposed by resolution. This configuration provides less intermediary protection than a CDN-backed deployment; infrastructure characteristics are mitigating or contextual signals only and do not offset the external reputation findings.

EVIDENCE

- Resolved hosting infrastructure: 4 unique IP addresses, including 4 likely origin addresses and 0 edge addresses.
- No CDN was detected in the infrastructure resolution.
- The resolved hosting country is UA, with registry RIPE NCC.

Closing Assessment

Use should be limited to passive review until the clinic's identity, professional standing, and payment arrangements have been independently confirmed; sensitive access and financial engagement should not proceed on the basis of this website alone.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	55/100
Identity verification confidence	60%
No on-site identity signals detected	

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of marcelastudart.com.br.

- The request stayed on marcelastudart.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by dns-parking.com, across 2 name servers. NOTED
- The registration is paid up to 2030-11-22. CLEAR
- The earliest public archive of this site is from 2010-10-09. CLEAR
- It is hosted on AS-HOSTINGER, from a server in UA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about marcelastudart.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
