The page as captured

<https://marcosbicicletas.com.br/>

What marcosbicicletas.com.br served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2021.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

The website presents itself as Marcos Bicletas, a local bicycle retailer in Arapiraca, Alagoas, offering bicycles, accessories, maintenance services, product inquiries, and in-person or WhatsApp-based sales.

Scam/Impersonation Risk

The site's visible content is consistent with a local bicycle shop and does not show a login form, wallet connection, hidden form, or apparent brand impersonation. However, this benign page presentation is outweighed by confirmed blacklist detections and malicious classifications from multiple independent security services. The resulting contradiction is material: the website should not be treated as safe for credentials, financial transactions, or other sensitive interaction solely because its homepage resembles a legitimate local retailer. No conflicting legal-entity names were observed, and no site-level impersonation indicator was identified. Evidence:

- The homepage identifies “Marcos Bicletas” in Arapiraca-AL and presents bicycle retail, accessories, and maintenance content.
- External reputation checks recorded 14 malicious detections, including alerts from Fortinet, Kaspersky, and Sophos, and a confirmed blacklist result.
- Domain registration evidence records creation on 2019-09-25, with an age of 6.91 years.
- Archive telemetry records 0 snapshots, first seen on 2021-05-14, last seen on 2025-04-04, with 5 years tracked.

Regulatory Verification Notes

The available material supports a likely connection to the named local business, but the real-world operator identity is not independently verified. The site does not claim a license or provide a licensing number; for a bicycle retailer this is primarily a disclosure and verification matter rather than proof of wrongdoing. The homepage supplies a physical location, opening hours, social links, and a WhatsApp contact route, but these details should not be treated as independently validated corporate or regulatory credentials. Transport encryption is present, although domain-validated TLS confirms encrypted delivery, not operator identity or business legitimacy. Evidence:

- The homepage provides a store location, opening hours, product categories, and links to Instagram, Facebook, WhatsApp, and map services.
- The site makes no license claim and displays no license number in the available business content.
- TLS uses issuer YE1 with DV validation and is valid through 2026-10-13T04:25:15+00:00.

What to Verify Next

Before any sensitive interaction, an independent offline route should confirm that the named retailer operates at the published location and controls the associated contact channels. Any applicable commercial registration, consumer-protection registration, or local business authorization should be checked with the relevant Brazilian authority rather than relying on the website. For a purchase, the counterparty, payment recipient, invoice, refund terms, and payment-protection options should be confirmed before funds are transferred. Evidence:

- The homepage routes product inquiries through WhatsApp and directs visitors toward in-person visits.
- No account-login or sensitive-data form was detected on the analysed page.
- Product prices are generally presented as “Consulte,” making counterparty and payment-detail confirmation particularly important before purchase.

Summary Verdict

The website has a **critical trust posture** because confirmed external malicious and blacklist signals create a decisive contradiction to its otherwise ordinary local-retail presentation. Apparent business identity and clean page behavior do not resolve that contradiction, and sensitive interaction should therefore be regarded as unsuitable pending independent validation.

Infrastructure Integrity

The site resolves to a single apparent origin address and is not shown behind a CDN; it is hosted by Hostinger International Limited in Lithuania. This infrastructure is a neutral hosting arrangement rather than evidence of legitimacy, and the absence of an identified protective edge means the hosting layer provides no meaningful basis for offsetting the external reputation concern. Evidence:

- Hosted on AS47583, AS-HOSTINGER – Hostinger International Limited, CY, with server IP 2.24.93.5 in LT.
- Infrastructure analysis records 1 unique IP, 0 edge IPs, and 1 likely origin IP.

Closing Assessment

Sensitive actions should not proceed until the business identity, contact control, payment recipient, and relevant regulatory or commercial standing have been independently confirmed through channels outside the website.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

- 01 Governance Risk

 - The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	LIKELY
Identity score	76/100
Identity verification confidence	76%

- Trusted social count=2

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of marcosbicicletas.com.br.

- The request stayed on marcosbicicletas.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by dns.br, across 2 name servers. NOTED
- The registration is paid up to 2027-09-25. NOTED
- The earliest public archive of this site is from 2021-05-14. CLEAR
- It is hosted on AS-HOSTINGER, from a server in LT. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about marcosbicicletas.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
