

Is mariamuller.com.br a scam? TrustSniffer's high-risk assessment: 5/100

mariamuller.com.br

Verdict

5

OUT OF 100

CRITICAL RISK

mariamuller.com.br shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-22 by automated analysis. Classification confidence 55%.

What this site appears to be

Artist Maria Muller portfolio site (Portuguese) with galleries, portfolio pages, articles and social links; contact via email provided. No financial transaction UI or credential harvesting detected.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What mariamuller.com.br served when TrustSniffer captured it on 2026-08-22. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2013.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

This website is a personal Portuguese-language portfolio for Maria Muller, presenting artwork, fashion design, painting, illustration, galleries, articles, and links to social-media profiles; its apparent purpose is to showcase creative work and facilitate contact for potential commissions or direct sales.

Scam/Impersonation Risk

No conflicting legal identities, brand impersonation, phishing form, credential-harvesting mechanism, or financial transaction interface was observed in the site content. However, the domain is recorded as **blacklisted** by external reputation sources, including four malicious classifications and one suspicious classification. That external signal is materially inconsistent with the otherwise benign artist-portfolio presentation and is the decisive reason for treating login, credential submission, payment, or other sensitive interaction as inappropriate. The observed behavioral traffic pattern also included a high proportion of external activity, although no wallet connection, password form, hidden form, clipboard hijacking, cloaking, or executable behavior was detected.

EVIDENCE

- The homepage and portfolio pages present Maria Muller's artistic work and contain no login, password, wallet, or payment form.
- External reputation assessment recorded 4 malicious and 1 suspicious detections, with blacklist status reported by 2 sources.
- Domain registration telemetry records creation on 2008-10-02 and an age of 17.9 years.
- Historical archive records show first observation on 2013-10-13, last observation on 2025-12-27, and 13 years tracked.

Regulatory Verification Notes

The site's apparent identity is consistent with a personal artist portfolio, and the homepage identifies Maria Muller while linking to Facebook, Instagram, LinkedIn, Pinterest, and YouTube. The available evidence does not independently verify the real-world operator, and no license claim or registration number is presented; for an artist site this is a transparency and transaction-verification matter rather than evidence of impersonation by itself. Any commission or direct-sale arrangement should therefore be treated as a private commercial transaction requiring independent confirmation of the counterparty and payment terms. No broker-dataset match was identified.

EVIDENCE

- The homepage and navigation identify the site as an artist, fashion, design, and gallery portfolio and provide links to five mainstream social platforms.
- No licensing authority or license number is disclosed in the reviewed site content.
- The site is hosted on AS31898, ORACLE-BMC-31898 — Oracle Corporation, US.
- The site uses a valid DV TLS certificate issued by YR1, valid to 2026-11-11.

What to Verify Next

Before any commission, purchase, or transfer of funds, independently confirm that the social profiles linked from the site are controlled by the same Maria Muller identified on the portfolio. Obtain written pricing, delivery, refund, ownership, and payment terms through an independently confirmed contact channel, and use a payment method offering transaction dispute protection. Where a regulated intermediary or payment service is proposed, confirm its authorization directly with the applicable official registry.

EVIDENCE

- The homepage's social-links section provides independent platform profiles that can be checked for continuity of identity and work history.
- The contact page is the relevant point for obtaining written commission or sales terms before payment.
- The absence of a transaction interface means proposed payment arrangements would occur outside the site and require separate counterparty verification.

Summary Verdict

The website presents a credible-looking personal portfolio, but the external blacklist and malicious-detection signals establish a **critical trust posture** for sensitive interaction. The operator’s identity remains likely rather than independently verified, and the benign page content does not offset the external reputation contradiction.

Infrastructure Integrity

The site resolves to Oracle Corporation infrastructure in the United States, with no CDN, edge IP, or origin-candidate separation identified. This is a technically identifiable hosting arrangement, but the infrastructure provides no mitigating basis for overriding the external reputation findings.

Closing Assessment

Passive viewing may be limited to non-sensitive activity; login, credential submission, payments, downloads, and disclosure of personal information should not proceed unless independent identity and transaction checks produce satisfactory results.

Written analysis generated 2026-08-22 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

- 01 Governance Risk

 - The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - Most of what the page loaded came from other domains rather than from this one.
Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_HIGH
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	LIKELY
Identity score	80/100
Identity verification confidence	80%

- Trusted social count=4

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of mariamuller.com.br.

- The request stayed on mariamuller.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by com.br, across 2 name servers. NOTED
- The registration is paid up to 2028-10-02. CLEAR
- The earliest public archive of this site is from 2013-10-13. CLEAR
- It is hosted on ORACLE-BMC-31898, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about mariamuller.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
