

Is marieclaire.co.uk legit? TrustSniffer's high-trust assessment: 80/100

marieclaire.co.uk

Verdict

80
OUT OF 100

HIGH TRUST

marieclaire.co.uk appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-11 by automated analysis. Classification confidence 75%.

What this site appears to be

Editorial home page for Marie Claire UK: features sections on fashion, beauty, health, culture, shopping and news, with sponsored content and commercial voucher/discount listings. Appears to be a mainstream magazine site operated by a publishing group.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2000.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

Marie Claire UK is an established editorial and lifestyle magazine website presenting fashion, beauty, health, culture, shopping, news, career advice and celebrity content, supported by advertising, sponsored material, newsletters and affiliate or voucher-based commercial activity.

Scam/Impersonation Risk

No contradictions were observed: the supplied evidence shows no phishing, impersonation, blacklist, or malicious-reputation finding. The homepage has professional editorial structure and coherent Marie Claire UK branding, while the site presents no cryptocurrency, investment, payment-harvesting or other high-risk abuse pattern. Behavioral analysis did record hidden forms and suspicious inline scripts, but it found no external password forms, wallet connection, wallet-drainer activity, clipboard hijacking or cloaking; in this editorial and advertising context, those observations are implementation or advertising anomalies rather than evidence of impersonation. One abuse report associated with an observed delivery address was attributed to shared CDN infrastructure, was whitelisted, carried zero confidence, and was therefore not treated as a site-specific signal.

EVIDENCE

- The homepage is categorized as "Magazine / Editorial" and contains substantial navigation across fashion, beauty, health, culture, shopping and news.
- Domain registration evidence records creation on 1998-06-17 and an age of 28.17 years.
- Archive evidence records 5,000 snapshots spanning 2000–2024, with 25 years tracked.
- Behavioral capture recorded 2 hidden forms and 2 suspicious inline scripts, but 0 external password forms, 0 wallet-connect runs and no cloaking.

Regulatory Verification Notes

The available material is consistent with a media and content business rather than a regulated financial service. No licensing or registration number is disclosed in the supplied site material; this is a transparency item for ordinary corporate and commercial verification, not evidence of a scam. The apparent publisher identity is not independently verified by the available evidence, so the site should be described as apparently legitimate rather than as identity-proven. Registration through Nameshield SAS, valid transport encryption and an established technical and historical footprint support the view that this is an established website. No matching broker-related third-party profile was identified.

EVIDENCE

- The homepage identifies the site as Marie Claire UK and provides a substantive editorial content map rather than a financial or investment offer.
- The domain registrar is Nameshield SAS; registration expires on 2027-06-17.
- The site is served from AS54113 (FASTLY - Fastly, Inc., US).
- TLS is issued by YR2 with DV validation and is valid to 2026-10-26.

What to Verify Next

Before credential or payment interactions, independently confirm the legal publisher or merchant identity through an authoritative corporate or brand channel. For any commercial offer reached through the site, review the applicable seller's returns terms and payment-protection arrangements before completing a transaction. Official support and contact channels should also be confirmed through an independent route where the interaction is sensitive.

EVIDENCE

- Independent operator-identity confirmation remains the relevant outstanding validation step.
- Commercial activity on the site includes sponsored and affiliate-linked pathways, making seller-specific terms and payment protections the appropriate transaction checks.
- The available evidence does not independently connect the website to a specific real-world legal operator.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website with a high-trust, low-risk posture. No scam or impersonation contradictions were observed, although the real-world operator identity is not independently verified.

Infrastructure Integrity

The site is protected by Fastly's CDN/WAF infrastructure. Observed addresses belong to CDN edge servers, with no origin candidate identified; this reduces direct exposure of the hosting environment and is a mitigating security measure, not independent proof of legitimacy.

Closing Assessment

Routine browsing is proportionate to the assessed posture; credential or payment interactions should proceed only after the ordinary independent identity, merchant-policy and payment-protection checks described above.

Written analysis generated 2026-08-11 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Signals weighed against the site

- AbuseIPDB: 1 report on hosting IP 199.232.198.114 (Fastly, Inc., Content Delivery Network), 0% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of marieclaire.co.uk.

- The request stayed on marieclaire.co.uk. It was not redirected to another domain. [CLEAR](#)
- Registration is published under Nameshield SAS. [CLEAR](#)
- DNS for this domain is served by net., across 4 name servers. [NOTED](#)
- The registration is paid up to 2027-06-17. [NOTED](#)
- The earliest public archive of this site is from 2000-03-03. [CLEAR](#)
- It is hosted on FASTLY, from a server in US. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about marieclaire.co.uk at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with

a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
