

# Is mariettafirewood.com legit? TrustSniffer's high-trust assessment: 100/100

mariettafirewood.com

## Verdict

100

OUT OF 100

HIGH TRUST

mariettafirewood.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 50%.

What this site appears to be

Marietta Firewood is a local Metro Atlanta vendor offering seasoned hardwood delivery (various quantities) with an online quote request form, FAQ, service area listing, and payment-on-delivery options. The site is informational and transactional for a small local service.

## Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

## Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2004.
- No flags from the reputation services TrustSniffer consulted at assessment time.

## Full analysis

### Overview

Marietta Firewood is a local Metro Atlanta firewood-delivery business offering seasoned hardwood, kindling, delivery, stacking, and pickup services through an informational and transactional website built around quote requests and payment on delivery.

### Scam/Impersonation Risk

No scam, phishing, impersonation, or identity-contradiction signals were observed. The homepage presents a coherent local-service model with named wood types, seasoning specifications, service areas, delivery terms, and a quote-request flow; the site does not provide a login or password form, and no hidden form, wallet connection, clipboard activity, cloaking, or brand-impersonation behavior was detected. Available external reputation checks reported no malicious or suspicious findings, although the overall reputation coverage is not comprehensive.

#### EVIDENCE

- The homepage describes oak, hickory, cherry, and maple firewood, delivery throughout Metro Atlanta, and a “Get Your Free Quote” process.
- The homepage contains one contact/quote form and no sensitive form fields or password submission.
- The domain was registered on 2007-07-12 and is approximately 19.12 years old.
- Archive records show first observation on 2004-03-24, last observation on 2026-02-05, and 23 years tracked.

#### Regulatory Verification Notes

The available evidence is consistent with an established, apparently legitimate small business, but the real-world operator identity is not independently verified. The site provides business, product, FAQ, service-area, and contact content, while no license claim or license number is presented; for this local retail and delivery model, that is a regulatory-disclosure point to confirm rather than evidence of deception. Registration through GoDaddy.com, LLC and valid transport encryption support infrastructure credibility, but neither establishes the operator’s legal identity nor constitutes a licensing determination.

#### EVIDENCE

- The About, Service Areas, FAQ, and Contact pages describe the local delivery model, Metro Atlanta/Cobb County coverage, ordering process, and payment options.
- The registration record lists GoDaddy.com, LLC as registrar; the domain expiration date is 2027-07-12.
- The site is served from AS24940, HETZNER-AS - Hetzner Online GmbH, DE.
- The TLS certificate is issued by YE1 with DV validation and is valid through 2026-11-06.

#### What to Verify Next

Before credential or payment interactions, an independent check should confirm the business’s legal or trading identity, applicable local registration or licensing requirements, and the ownership of the payment recipient. The quote, delivery, stacking, cancellation, and refund terms should be confirmed in writing, with payment-protection options preferred for transactions where delivery or product quality is uncertain. Official contact channels should also be confirmed through an independent offline or locally sourced route.

#### EVIDENCE

- The homepage and quote form establish that orders begin through a contact-based quotation process rather than an automated checkout.
- The FAQ and ordering content identify cash, Venmo, Zelle, credit, and payment-on-delivery options.
- The Service Areas page provides the geographic scope against which delivery arrangements can be checked.

#### Summary Verdict

Available evidence is consistent with an established, apparently legitimate website and supports a high-trust, low-risk posture for its stated local-service purpose. No contradictory signals were observed, but the operator’s

real-world identity remains unverified, so legitimacy should be understood as evidence-consistent rather than proven.

Infrastructure Integrity

The site benefits from CDN/WAF protection, which mitigates direct exposure of the hosting environment. The observed edge address is 78.47.72.223 on AS24940, operated by Hetzner Online GmbH; the origin server IP was not observable in this analysis. This is a protective infrastructure signal, not independent proof of business legitimacy.

Closing Assessment

Normal browsing and ordinary service enquiries are proportionate, while independent merchant-identity and payment-protection checks should precede credential submission or material payment commitments.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

|                                  |            |
|----------------------------------|------------|
| Status                           | UNVERIFIED |
| Identity score                   | 30/100     |
| Identity verification confidence | 25%        |

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of mariettafirewood.com.

- The request stayed on mariettafirewood.com. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by domaincontrol.com, across 2 name servers. NOTED
- The registration is paid up to 2027-07-12. NOTED
- The earliest public archive of this site is from 2004-03-24. CLEAR
- It is hosted on HETZNER-AS, from a server in DE. NOTED

## About this assessment

A trust score summarises the evidence TrustSniffer could collect about mariettafirewood.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
