Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2018.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Maringá Post is a Brazilian local and regional news portal covering Maringá, Paraná, and surrounding areas through reporting on civic affairs, politics, public safety, business, sports, entertainment, employment, culture, events, and weather; its apparent business model is local journalism supported by advertising, sponsorship, and related editorial partnerships.

Scam/Impersonation Risk

No contradiction-based scam or impersonation indicators were observed. The homepage presents dated local-news coverage and coherent editorial sections, while the examined interaction showed no phishing form, credential-harvesting behavior, brand impersonation, or deceptive financial activity. Normal interaction with the site is appropriate.

EVIDENCE

- The homepage contains current dated reports covering municipal affairs, culture, education, and regional events.
- The homepage analysis found no login form, sensitive form, hidden form, or untrusted submission destination.
- The domain was registered in 2017 and is approximately 8.98 years old.
- Web archives contain 324 snapshots spanning 2018–2026, covering 9 tracked years.

Regulatory Verification Notes

The site presents itself as a news publisher rather than a financial service. Its identified corporate attribution is consistent with Maringá Post Notícias Ltda.; no financial-services license is claimed in the examined material, which is a transparency note rather than evidence of misconduct. No matching third-party broker-reputation record was identified.

EVIDENCE

- The site's publisher attribution identifies MARINGA POST NOTICIAS LTDA.
- The site is served from AS13335, operated by Cloudflare, Inc.
- TLS uses issuer YE2 with DV validation and is valid through 2026-10-08.
- The homepage is categorized as a news portal with local and regional journalism as its stated purpose.

What to Verify Next

For routine reading and standard interaction, no additional security step is indicated. If the site is relied upon for consequential reporting or any activity beyond publishing, independently confirm the relevant publisher details, contact channels, and applicable disclosures through an authoritative source.

EVIDENCE

- The homepage provides distinct sections for civic, political, policing, business, sports, and cultural reporting.
- The observed content includes dated articles and recurring editorial categories rather than a transactional or investment-oriented interface.
- The examined page contains no sensitive submission form requiring additional account-security validation.

Summary Verdict

The website presents a legitimate, established, and trustworthy posture with no observed contradiction-based concern. Normal interaction, including account login where offered and standard use, is appropriate.

Infrastructure Integrity

Cloudflare CDN/WAF protection fronts the website, and all observed addresses were CDN edge servers rather than the origin server. This reduces direct origin exposure and is a mitigating infrastructure characteristic, not independent proof of legitimacy.

EVIDENCE

- Observed edge IPs were 104.26.10.102, 172.67.69.190, and 104.26.11.102.
- The origin server IP was not observable in the infrastructure assessment.

Closing Assessment

Proceed with normal site use; apply ordinary independent source validation only when the content informs a consequential business, legal, or operational decision.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of maringapost.com.br.

- The request stayed on maringapost.com.br. It was not redirected to another domain. [CLEAR](#)
- DNS for this domain is served by cloudflare.com, across 2 name servers. [NOTED](#)
- The registration is paid up to 2029-08-11. [CLEAR](#)
- The earliest public archive of this site is from 2018-01-25. [CLEAR](#)
- It is hosted on CLOUDFLARENET, from a server in US. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about maringapost.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
