

Is markakare.com legit? TrustSniffer's high-trust assessment: 90/100

markakare.com

Verdict

90

OUT OF 100

HIGH TRUST

markakare.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 70%.

What this site appears to be

Turkish creative/media agency site (Marka Kare). Presents services (web, logo, advertising, social media, print), contact details (phone, email, address), and client references. No login or financial solicitations detected.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2017.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Marka Kare is a Turkish creative-media and advertising agency website presenting web design, logo development, advertising-film production, social-media design, print, branding, and outdoor advertising services, with the apparent business model of obtaining client contracts and project fees.

Scam/Impersonation Risk

No contradictions were observed. The website presents a coherent corporate-agency profile, provides ordinary business contact and portfolio information, and does not expose login functionality, financial solicitations, cryptocurrency activity, payment forms, or suspicious browser behavior. Available external reputation checks returned no malicious or suspicious findings, although the operator's real-world identity remains apparently rather than independently verified.

EVIDENCE

- The homepage presents Marka Kare as a creative-media and advertising provider, with service descriptions, client references, and no financial solicitation.
- The site's observed behavior recorded no login form, hidden sensitive form, wallet connection, clipboard manipulation, cloaking, or suspicious inline script.
- The domain was registered in 2015 and is approximately 10.84 years old, according to the domain registration record.
- The site has 332 archive snapshots spanning 2017–2026, covering 10 tracked years with a maximum observed gap of 1 year.

Regulatory Verification Notes

The `/kurumsal` and `/iletisim` areas support an identifiable commercial presentation through company information, contact details, social profiles, and client references. The pages describe a creative-services business rather than a regulated financial activity and make no licensing claim; this is a disclosure point to clarify in any commercial engagement, not evidence of deceptive activity. A registration record associates the domain with YUSUF NURİ ÖZDEMİR and MARKA KARE REKLAM SAN TİC LTD ŞTİ., but the available evidence does not independently prove that this registered information is the current operating entity. No adverse broker-reputation match was identified.

EVIDENCE

- The homepage and corporate/contact pages describe web, advertising, branding, and media-production services rather than regulated financial products.
- The domain registrar is Isimtescil Bilisim A.S.
- The site's TLS certificate is issued by YR2, uses DV validation, and is valid to 2026-10-10.
- Four linked social platforms—Facebook, Twitter, Instagram, and YouTube—are presented from the site.

What to Verify Next

Before a paid engagement or submission of business-sensitive information, the prospective customer should independently confirm the contracting entity, obtain a written scope of work and invoice, and review cancellation, refund, and dispute terms. Contact channels should be validated through an independently sourced route, and payment should use a method offering appropriate commercial protection.

EVIDENCE

- The contact page provides business contact details and an address for independent comparison with contracting and invoicing information.
- The corporate, work, and references pages provide material that can be matched against the proposed supplier and portfolio.
- No sensitive submission form was observed on the assessed pages, so ordinary contract and payment diligence remains the principal next step.

Summary Verdict

The available evidence supports a **high-trust, low-risk posture** for an established-looking creative-agency website. The site appears legitimate and evidence-consistent, while operator identity should remain described as likely rather than proven.

Infrastructure Integrity

The site resolves directly to a single hosting address without a detected CDN or WAF layer. This provides less edge-layer shielding than CDN-fronted hosting, so the hosting arrangement is a contextual mitigating or neutral signal rather than proof of legitimacy.

EVIDENCE

- Hosted on AS42846 through guzelhosting - GNET Internet Telekomunikasyon A.S., Türkiye.
- Resolved infrastructure includes IP address 89.252.138.118 in Türkiye.
- No CDN was detected; one likely origin address was identified.

Closing Assessment

Routine browsing and business inquiry are proportionate to the assessed posture, while independent contracting, payment-protection, and counterparty checks should precede credential submission or any financial commitment.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	80/100
Identity verification confidence	80%

- Trusted social count=4

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of markakare.com.

- The request stayed on markakare.com. It was not redirected to another domain. CLEAR
- Registration is published under Isimtescil Bilisim A.S. CLEAR
- DNS for this domain is served by guzelhosting.com, across 4 name servers. NOTED
- The registration is paid up to 2026-10-19. NOTED
- The earliest public archive of this site is from 2017-05-05. CLEAR
- It is hosted on guzelhosting, from a server in TR. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about markakare.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
