- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2020.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

market4u is a Brazilian corporate and ecommerce website presenting autonomous, 24-hour mini-markets for condominiums and companies, alongside customer purchasing, supplier, and franchise opportunities.

Scam/Impersonation Risk

No contradictions were observed. The homepage describes a coherent retail operating model, including more than 500 products, app-based purchasing, artificial-intelligence-assisted replenishment, and unattended operation; its scale claims concern market presence and customer activity rather than financial returns or unverifiable investment promises. Page analysis found no phishing, credential harvesting, brand impersonation, malicious reputation findings, or suspicious financial functionality.

EVIDENCE

- The homepage presents the market4u retail, condominium, business, and franchise model with specific operational descriptions.
- The site exposes no login form, hidden sensitive form, wallet connection, or credential-submission flow.
- The domain was registered on 2019-11-12 and is approximately 6.73 years old.
- 80 archive snapshots span 2020–2026, covering 7 years.

Regulatory Verification Notes

The site provides corporate, contact, privacy, terms, FAQ, and legal-information pathways consistent with a commercial retail and franchise operation. No financial-services license or regulator is identified in the supplied pages; this is a verification scope point for any regulated activity, not evidence of deception. The available external broker context contains no match.

EVIDENCE

- The homepage identifies the business as a Brazilian autonomous-market network and provides corporate contact pathways.
- The legal, privacy, and terms links are presented as part of the site's standard corporate information.
- Hosting is identified as AS20473, AS-VULTR – The Constant Company, LLC, US.
- TLS uses issuer YR2 with DV validation and is valid through 2026-09-29.

What to Verify Next

A prospective franchisee or commercial counterparty should confirm the contracting legal entity, review the applicable franchise and commercial terms, and independently validate the official contact channels before signing agreements or transferring funds.

EVIDENCE

- The homepage links to franchise recruitment and requests for a complete franchise presentation.
- The site provides contact, privacy, terms, FAQ, and corporate-information pathways.
- The franchise and supplier propositions should be matched against the formal contractual documentation before commitment.

Summary Verdict

The website presents as an established, legitimate, and trustworthy commercial service with a coherent identity and no observed scam or impersonation indicators. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site resolves directly to a single likely origin on AS20473, with no CDN/WAF layer detected in the supplied infrastructure observations. Its valid TLS certificate provides baseline transport protection; infrastructure protection is a mitigating control, not independent proof of legitimacy.

EVIDENCE

- The site is served from AS20473 (AS-VULTR – The Constant Company, LLC, US).
- One unique IP and one likely origin IP were identified; edge IPs and a CDN were not detected.
- The certificate issuer is YR2; validation level is DV; expiry is 2026-09-29T01:35:44+00:00.

Closing Assessment

Normal browsing, login, and standard account activity may proceed, while franchise or other contractual decisions should follow ordinary commercial due diligence.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about market4u.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
