

Is martinezglass.com legit? TrustSniffer's high-trust assessment: 90/100

martinezglass.com

Verdict

90

OUT OF 100

HIGH TRUST

martinezglass.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be	Martinez Glass is an established local glass company (since 1975) offering commercial and residential glazing services, with a contact form, phone number, portfolio and customer testimonials. No financial investment offering or credential harvesting detected.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2010.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This website is the online presence of Martinez Glass, a Sacramento-area local glazing contractor presenting commercial and residential glass installation, replacement, repair, and custom fabrication services. Its apparent business model is project-based service work for property owners, contractors, businesses, and public-sector customers, supported by service descriptions, portfolio examples, testimonials, and contact facilities.

Scam/Impersonation Risk

No contradictions were observed: there is no detected phishing, brand impersonation, malicious reputation indicator, or conflicting legal identity. The homepage presents a coherent local-service model rather than an investment, cryptocurrency, or credential-collection operation; the available contact form is not a sensitive login or payment form. Automated browser behavior recorded some low-level anomalies, including an inline script and substantial page changes after interaction, but these were not accompanied by hidden forms, password collection, wallet activity, cloaking, clipboard manipulation, or an external form destination. On the available evidence, these technical observations do not establish an abuse pattern.

EVIDENCE

- The homepage describes commercial glazing, residential windows, repairs, frameless showers, railings, mirrors, and other custom glass services.
- The Contact page provides a telephone contact and a general contact form without a sensitive credential field.
- Available external checks reported no malicious detection, no search-engine warning, and zero abuse reports; no broker-dataset match was identified.
- The domain was registered on 2005-11-06 and is 20.8 years old through Namecheap Inc.

Regulatory Verification Notes

The site's apparent legitimacy is supported by a detailed and internally consistent service presentation, including an About page describing Martinez Glass as a family-run business serving the Greater Sacramento area since 1975, together with a portfolio and customer testimonials. The site does not present a licensing claim or licensing number; for a glazing contractor, that is a transparency item requiring ordinary business verification rather than evidence of a scam. The real-world operator identity remains likely rather than independently verified, so the on-page business description should not be treated as conclusive proof of the legal entity behind the domain. The available third-party reputational context does not produce an adverse match.

EVIDENCE

- The About page states that Martinez Glass has operated as a family-run shop since 1975 and serves government, corporate, contractor, business, and residential customers.
- The Portfolio page displays named commercial and residential project examples, including storefront, mixed-use, theatre, restaurant, storage, window, shower, and railing work.
- Hosting is identified as AS31898, ORACLE-BMC-31898 — Oracle Corporation, US.
- TLS uses issuer YR1 with DV validation and is valid to 2026-11-10T22:36:29+00:00.

What to Verify Next

Before a contract or payment commitment, an independent business check should confirm the legal trading name, physical operating details, and applicable contractor or trade licensing with the relevant California or local registry. The quoted service scope and project references should be matched against an independently obtained estimate, and payment terms should be reviewed for appropriate consumer or commercial payment protection. Contact channels should be confirmed through an independent business listing or offline source before sensitive information is exchanged.

EVIDENCE

- The About page supplies the business-history and service claims that can be compared with an independent registry or business listing.
- The Contact page provides the primary channel for requesting an estimate and confirming project and payment terms.
- The Portfolio and testimonial content provides specific work examples suitable for independent commercial-reference checks.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate local-services website and supports a high-trust, low-risk posture. The principal qualification is that the real-world operator has not been independently verified to a conclusive standard.

Infrastructure Integrity

The site resolves to a single Oracle Corporation hosting endpoint, with no detected CDN or WAF edge layer and no separate edge-IP posture. This is a neutral infrastructure observation rather than an adverse finding; the site's transport encryption is active and the hosting environment provides a conventional, identifiable service-provider context.

Closing Assessment

Ordinary browsing and service inquiry are proportionate, while independent business-identity, contractual, and payment-protection checks should be completed before credentials or payment details are submitted.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	73/100
Identity verification confidence	37%

- Trusted social count=1

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of martinezglass.com.

- The request stayed on martinezglass.com. It was not redirected to another domain. CLEAR
- Registration is published under NAMECHEAP INC. CLEAR
- DNS for this domain is served by websitewelcome.com, across 2 name servers. NOTED
- The registration is paid up to 2026-11-06. NOTED
- The earliest public archive of this site is from 2010-07-09. CLEAR
- It is hosted on ORACLE-BMC-31898, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about martinezglass.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
