

Is mazusoft.com.br legit? TrustSniffer's high-trust assessment: 90/100

mazusoft.com.br

Verdict

90

OUT OF 100

HIGH TRUST

mazusoft.com.br appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-11 by automated analysis. Classification confidence 70%.

What this site appears to be

Portuguese-language page providing Lotofácil draw results (concurso 3758) including drawn numbers, order of draw, prize table and winners by location. Contains site navigation, generator/tools links, and a note about voluntary premium support. No payment flows or credential collection present in the page content.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2013.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

MazuSoft is a Portuguese-language informational website presenting Lotofácil lottery results, drawn numbers, prize distributions, historical contests, and related tools such as game generators and tables. Its apparent business model is content publication supported in part by voluntary premium contributions rather than direct financial services.

Scam/Impersonation Risk

No phishing, impersonation, blacklist, malicious-content, or conflicting-identity indicators were observed. The reviewed results page provides substantive lottery information, contains no payment flow or credential-collection form, and does not exhibit an apparent attempt to imitate another brand. The site's established registration continuity and consistent historical presence further support provenance consistent with an established website, although the real-world operator identity remains independently unverified.

EVIDENCE

- The Lotofácil results page provides drawn numbers, prize categories, winner counts, and historical contest navigation without a credential or payment form.
- The domain was registered on 2011-03-23 and is approximately 15.4 years old.
- Web-archive records show 123 snapshots from 2013-04-18 through 2024-11-01, covering 12 tracked years.
- Historical analysis found no suspicious repurposing or material semantic drift.

Regulatory Verification Notes

The site's apparent informational model does not, by itself, establish that it is a licensed lottery operator or financial service. No licensing authority or license number is evidenced in the reviewed material, so the principal regulatory issue is a transparency item rather than an indication of deception. The available evidence is consistent with an established, apparently legitimate site, while its legal operator and any entity responsible for voluntary premium support should not be treated as independently verified. No matching broker-reputation record was identified; that is contextual support only and is not a licensing determination.

EVIDENCE

- The reviewed content describes informational lottery-results and tool functionality, with voluntary premium support rather than direct financial-service activity.
- The site is served through AS13335, CLOUDFLARENET – Cloudflare, Inc., US.
- The transport certificate is issued by WE1, uses DV validation, and is valid to 2026-09-30T20:57:51+00:00.
- Evaluated external reputation checks recorded no malicious or suspicious detections.

What to Verify Next

Before credential or payment interactions, an independent source should be used to confirm the legal operator, the recipient of any premium contribution, and the applicable terms for refunds or payment disputes. Where the site's activities are subject to local lottery or gaming requirements, the relevant Brazilian registry or authority should be checked for any applicable authorization. Official contact channels should also be confirmed through an independent, offline route rather than relying solely on on-site claims.

EVIDENCE

- Operator identity is not independently verified in the available evidence.
- The reviewed page identifies its informational purpose and voluntary-support model but does not provide an evidenced licensing authority or license number.
- The page's lack of payment and credential forms limits the immediate transaction surface observed during review.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website and supports a high-trust, low-risk posture for its stated informational purpose. No scam or impersonation contradictions were observed, but the positive assessment does not independently prove the real-world operator's identity.

Infrastructure Integrity

The website is protected by Cloudflare CDN/WAF infrastructure, with all four observed addresses operating as Cloudflare edge servers on AS13335; no origin candidate was identified. This provides a meaningful exposure-mitigation layer, but remains an infrastructure control rather than proof of legitimacy.

Closing Assessment

Ordinary browsing is proportionate to the assessed posture; independent operator, terms, and payment-protection checks should be completed before credentials or funds are submitted.

Written analysis generated 2026-08-11 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of mazusoft.com.br.

- The request stayed on mazusoft.com.br. It was not redirected to another domain. [CLEAR](#)
- DNS for this domain is served by cloudflare.com, across 2 name servers. [NOTED](#)
- The registration is paid up to 2029-03-23. [CLEAR](#)
- The earliest public archive of this site is from 2013-04-18. [CLEAR](#)
- It is hosted on CLOUDFLARENET, from a server in US. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about mazusoft.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
