## Full analysis

### Overview

This website is a Ukrainian online fashion retailer offering branded clothing, footwear, accessories, home products, discounts, delivery across Ukraine, returns, warranties, and loyalty rewards through a direct-to-consumer ecommerce model.

### Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent retail model with extensive apparel and accessory categories, named brands including Under Armour, Tommy Hilfiger, Calvin Klein, Diesel, Gant, and G-Star RAW, together with delivery, returns, warranty, contact, account, and loyalty-program functions. No phishing, brand-impersonation, malicious-content, or abusive interaction indicators were identified, and normal account login and standard use are appropriate.

- The homepage provides a substantial retail catalogue, named brands, pricing, promotions, account access, delivery, returns, warranty, and loyalty-program functions.
- External reputation checks found no malicious or suspicious detections; the domain is within the global top one million traffic footprint.
- The domain was registered on 2023-03-14 and is approximately 3.38 years old; archival records contain 108 snapshots across 4 tracked years, from 2023-11-07 through 2026-05-26.

### Regulatory Verification Notes

The site operates as a conventional fashion retailer rather than presenting a regulated financial service. Its reviewed content includes company policies, delivery and returns information, warranty terms, and contact details. No licensing claim or registration number was identified in the supplied page evidence; this is a limited transparency point for ordinary commercial due diligence, not evidence of deception. The site's established content, clean reputation, and continuing historical activity support its legitimacy.

- The homepage and policy content describe consumer retail products, delivery, returns, warranty, and loyalty services.
- Hosted on AS13335, Cloudflare; the site uses a TLS certificate issued by YE2 with DV validation, valid to 2026-09-23.
- Historical records show continuous activity from 2023 through 2026 without suspicious repurposing or semantic drift.

### What to Verify Next

For a prospective commercial engagement, confirm the retailer's current legal entity and any applicable consumer-commerce registration through the relevant Ukrainian registry, and independently confirm the official support and payment channels before completing a high-value order.

- The site publishes contact details and customer-support functions on the homepage.
- Delivery, returns, warranty, and payment information are presented as dedicated customer-service content.
- The reviewed material contains no claimed license number requiring specialist regulatory confirmation.

Summary Verdict

The website presents as a legitimate, established, high-trust ecommerce business with a coherent commercial purpose and no observed scam, phishing, or impersonation contradiction. Its overall posture supports normal interaction, including account access and standard transactions.

Infrastructure Integrity

Cloudflare provides the site’s CDN and WAF protection, with observed edge addresses 172.66.159.193 and 104.20.16.31; the origin server was not observable. This reduces direct exposure of the hosting environment and is a mitigating infrastructure characteristic, not independent proof of legitimacy.

Closing Assessment

Normal browsing, account login, and standard purchasing are appropriate, subject to routine payment and account-security practices.

## About this assessment

A trust score summarises the evidence TrustSniffer could collect about md-fashion.ua at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
