

Is mediassist.in legit? TrustSniffer's high-trust assessment: 100/100

mediassist.in

Verdict

100

OUT OF 100

HIGH TRUST

mediassist.in appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-03 by automated analysis. Classification confidence 65%.

What this site appears to be

Corporate homepage for Medi Assist Healthcare Services, an established healthcare benefits and insurance third-party administrator. It presents products, claims and benefits-administration services, subsidiaries, operating metrics, corporate history, investor information, policies, helplines, and verified outbound communication channels.

Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2018.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Medi Assist is a corporate healthcare-services website presenting benefits administration, insurance claims management, international private medical insurance support, self-funded plans, medical-value travel services, provider-network access, and related technology solutions for insurers, employers, members, and healthcare providers.

Scam/Impersonation Risk

No identity contradictions, brand impersonation, phishing indicators, or adverse threat-reputation findings were observed. The site presents a coherent Medi Assist corporate identity supported by a long-established domain, sustained historical activity, a meaningful global traffic footprint, and content consistent with an operating healthcare-administration business. Interactive testing identified no hidden forms, credential diversion, cloaking, clipboard manipulation, wallet behavior, or suspicious scripts.

- The domain registration record shows registration in 2016 (~9.88 years old) through Endurance International Group India Private Limited.
- The web archive contains 158 snapshots spanning 2018–2026 (9 years tracked), with no evidenced repurposing or semantic category shift.
- The corporate homepage identifies Medi Assist and describes its healthcare-administration services, subsidiaries, leadership, policies, financial statements, and investor-relations resources.
- Reputation telemetry records a global traffic rank of 73,742, no malicious safe-browsing finding, no external blacklist finding, and no reported abuse associated with the assessed address.

Regulatory Verification Notes

The homepage provides substantial corporate-governance and investor-facing material, including Board of Directors, leadership, financial statements, certifications, policies, reports, and separately managed subsidiaries. It names Medi Assist Insurance TPA and Paramount Health Services & Insurance TPA among its third-party-administration businesses. The supplied content does not establish a specific licence number or regulator attribution; this is a limited disclosure-verification point rather than evidence of illegitimacy. No matching adverse broker-reputation record was identified.

- The homepage states that subsidiaries are legally separate entities with their own management, operations, and financial statements.
- The site navigation provides dedicated resources for investor relations, corporate leadership, certifications, financial reporting, privacy, and terms of use.

- The hosting infrastructure is served from AS55410 (VIL-AS-AP — Vodafone Idea Ltd, India).
- The site’s transport encryption uses a DV certificate issued by GeoTrust TLS RSA CA G1, valid until 2027-01-21.

What to Verify Next

For regulated onboarding or material contractual reliance, the relevant Medi Assist subsidiary should be matched to the contracting service, and its authorization should be confirmed directly with the applicable insurance or healthcare-administration registry. Corporate filings and signatory authority should also be reconciled with the investor-relations documentation, while official helpline and correspondence channels should be confirmed through independently sourced corporate records.

- The homepage separates services across multiple named subsidiaries, making entity-level contracting checks appropriate.
- The investor-relations area offers corporate and financial materials suitable for comparison with authoritative public filings.
- The contact and policy navigation provides identifiable channels and documents for independent reconciliation.

Summary Verdict

Medi Assist is a legitimate, established, and trustworthy corporate website with a consistent identity, mature operating profile, clean observed behavior, durable provenance, and no contradictory risk signals. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site resolves directly to two likely origin addresses rather than operating behind a detected CDN or WAF edge. Its stable Indian hosting posture and valid transport encryption support ordinary technical integrity, although infrastructure characteristics alone are not proof of organizational legitimacy.

Closing Assessment

Prospective users may engage normally, while regulated institutions should complete their standard entity-specific authorization and contracting checks before formal onboarding.

Written analysis generated 2026-08-03 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of mediassist.in.

- The request stayed on mediassist.in. It was not redirected to another domain. CLEAR
- Registration is published under Endurance International Group India Private Limited. CLEAR
- DNS for this domain is served by awsdns-09.com, across 4 name servers. NOTED
- The registration is paid up to 2026-09-18. NOTED
- The earliest public archive of this site is from 2018-07-17. CLEAR
- It is hosted on VIL-AS-AP, from a server in IN. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about mediassist.in at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
