

Is meiyuyuan.com a scam? TrustSniffer's high-risk assessment: 0/100

meiyuyuan.com

Verdict

0

OUT OF 100

CRITICAL RISK

meiyuyuan.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

Corporate website for Yueqing Chengyang Electric Co., Ltd showcasing solar energy products (batteries, inverters, ESS), contact details, certifications and product listings. Primary CTA is inquiry for pricelist and contact via phone/email.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What meiyuyuan.com served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2012.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

This website is a corporate product-catalogue site presenting Yueqing Chengyang Electric Co., Ltd. as a manufacturer and supplier of solar-energy equipment, including energy-storage lithium battery packs, battery systems, solar inverters, portable outdoor power supplies, and related solutions sold through direct enquiries.

Scam/Impersonation Risk

Confirmed external threat intelligence identifies the domain as blacklisted, with 13 malicious detections and Tier-1 flags from Fortinet and Sophos. This materially outweighs the otherwise ordinary corporate presentation and creates a serious risk for sensitive interaction. No brand impersonation or phishing form was identified in the captured page content, and the site does not present login or payment forms; however, the blacklist and malicious detections remain direct contradictions to the site's benign supplier appearance. The domain's historical continuity does not resolve the current reputation concern.

EVIDENCE

- The external reputation assessment records 13 malicious detections, Tier-1 threat flags from Fortinet and Sophos, and a confirmed blacklist status for the domain.
- Domain registration telemetry records creation on 2010-10-30 and an age of 15.82 years; the archive record lists 0 snapshots, with first seen 2012-04-30 and last seen 2026-05-14 across 15 years tracked.
- The homepage presents a corporate solar-equipment catalogue and direct enquiry process, while behavioural testing found no login form, hidden sensitive form, wallet connection, or clipboard-hijacking activity.

Regulatory Verification Notes

The site identifies a named Chinese manufacturing company and describes products, applications, case studies, contact details, and certifications, but the supplied evidence does not independently verify the operator's identity or establish licensing or registration status. This is a regulatory and commercial verification gap rather than, by itself, proof of fraud. The site should therefore be treated as an unverified supplier whose corporate claims and product certifications require independent confirmation. The available broker-reputation dataset contains no match and provides no adverse regulatory conclusion.

EVIDENCE

- The homepage and About Us content identify Yueqing Chengyang Electric Co., Ltd. and describe manufacturing, research and development, production, BMS customisation, and lithium-battery PACK services.
- The site's transport encryption uses a DV certificate issued by TrustAsia DV TLS RSA CA 2024, valid to 2026-10-31.
- Hosting telemetry places the site on AS135377, UCLOUD-HK-AS-AP / UCLOUD INFORMATION TECHNOLOGY (HK) LIMITED, Hong Kong.

What to Verify Next

Before any commercial commitment, independently confirm that Yueqing Chengyang Electric Co., Ltd. is the legal contracting entity, verify its business registration and any product-specific certifications with the issuing bodies, and obtain transaction, warranty, delivery, and refund terms in writing. Contact details should be validated through an independently sourced company record or an offline business channel rather than relying solely on the website. Any proposed payment beneficiary should match the independently confirmed legal entity.

EVIDENCE

- The homepage provides product descriptions, project examples, telephone contact, and an enquiry-for-pricelist call to action.
- The About Us and product sections describe UN38-related product certification claims and customised battery-system services that require issuer-level confirmation.
- The captured site contains no login or sensitive submission form, so the immediate exposure is primarily associated with commercial engagement and payment decisions.

Summary Verdict

The website has a corporate supplier presentation but an unacceptable trust posture for sensitive interaction because confirmed malicious detections and blacklisting directly conflict with its apparent business identity. Its legitimacy remains unverified, and the available evidence does not support treating the domain as a trusted commercial counterparty.

Infrastructure Integrity

The site resolves directly to a likely origin address on UCLOUD-HK-AS-AP rather than through a detected CDN or WAF. The identified hosting infrastructure and valid TLS provide basic transport and hosting context only; they do not offset the external reputation findings.

Closing Assessment

Sensitive actions, credential submission, and financial or commercial commitments should be withheld unless the counterparty, documentation, contact channels, and payment arrangements have been independently validated through trusted external records.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

- 01

Governance Risk
 - Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.

Registration and ownership rule:KF_WHOIS_PRIVATE
 - The registration record withholds contact details for the operator.

Registration and ownership rule:KF_WHOIS_HIDDEN
- 02

Sensitive Interaction Risk
 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

Analysis engine signal:direct_threat
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.

External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of meiyuyuan.com.

- The request stayed on meiyuyuan.com. It was not redirected to another domain. CLEAR
- Registration is published under Xin Net Technology Corporation. CLEAR
- DNS for this domain is served by xincache.com, across 2 name servers. NOTED
- The registration is paid up to 2026-10-30. NOTED
- The earliest public archive of this site is from 2012-04-30. CLEAR
- It is hosted on UCLOUD-HK-AS-AP, from a server in HK. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about meiyuyuan.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
