Key findings

- Automated classification: Governance Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2009.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Memories Retreats is an informational hospitality website for a bed-and-breakfast and retreat venue, presenting guest rooms, amenities, group accommodation, event-hosting options, and information about the surrounding Attica, Indiana area. Its apparent business model is to generate room reservations and retreat or event inquiries through published contact details rather than through an on-site booking or payment system.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent small-lodging use case, describing named guest rooms, private bathrooms, courtyard views, group arrangements, and hosting for events such as corporate retreats, church retreats, family reunions, and celebrations. The captured site contains no login form, sensitive data form, wallet connection, cryptocurrency feature, or apparent payment flow, and no brand-impersonation indicators were identified. The available external checks did not report malicious or suspicious findings, although reputation coverage was partial; this supports a low apparent scam or impersonation concern without independently proving the operator's identity.

EVIDENCE

- The homepage describes Memories Retreats, its guest rooms, amenities, and retreat or event-hosting arrangements.
- The homepage contained no login form, hidden sensitive form, password submission, or wallet-related interaction.
- The domain was registered on 2008-05-21 and is 18.26 years old; 201 web-archive snapshots spanning 2009–2026 represent 18 years tracked.

Regulatory Verification Notes

The site's legal and regulatory position is not independently established by the available material. The captured content identifies the hospitality offering and provides contact details, but no licensing authority or license number is presented; for a bed-and-breakfast and event venue, the applicable requirements would depend on the relevant local jurisdiction and activities. This is a disclosure point for verification, not evidence of a scam. The domain's long registration continuity, sustained archival presence, clean observed page behavior, and valid transport encryption are consistent with an established website, while the real-world operator remains unverified. No broker-dataset match or confirmed third-party blacklist finding was identified.

EVIDENCE

- The homepage identifies the business as a bed-and-breakfast and retreat venue but does not display a licensing authority or license number.
- The domain registrar is NETWORK SOLUTIONS, LLC.; the recorded creation date is 2008-05-21T18:09:04Z and the expiry date is 2033-05-21T18:09:04Z.
- The site is served from AS14555, LIQUIDNETLTD1 - LiquidNet US LLC, US.
- The TLS certificate is issued by YR1 at DV validation level and is valid to 2026-10-26T23:10:03+00:00.

What to Verify Next

Before a deposit, event commitment, or other material transaction, the prospective customer should confirm the venue's legal operating details and any applicable local lodging or event requirements through the relevant public authority. Booking terms, cancellation conditions, refund arrangements, and the intended payment process should be obtained in writing before funds are transferred. Official contact channels should also be confirmed through an independent route, such as a publicly listed local business or tourism source.

EVIDENCE

- The homepage supplies reservation and inquiry contact details but shows no online booking engine or payment workflow.
- The guest-room and event-hosting pages provide the service description that should be matched against written booking and cancellation terms.
- The local-area content identifies Attica, Indiana, providing a basis for jurisdiction-specific checks.

Summary Verdict

The website has a **moderate-trust posture**: its content, historical continuity, technical operation, and absence of observed threat or impersonation indicators are broadly consistent with a legitimate small hospitality business. The principal limitation is that the available evidence does not independently verify the real-world operator, so the site should not be treated as identity-proven for material commitments.

Infrastructure Integrity

The site resolves directly to a single U.S.-based hosting address operated by LiquidNet US LLC rather than through a detected CDN or WAF. This is a conventional hosting arrangement and provides no standalone legitimacy proof, but the resolved infrastructure is identifiable and the site presents valid TLS protection.

Closing Assessment

Routine browsing and initial booking inquiries are reasonable, while deposits, event commitments, and other sensitive or high-value actions should follow independent identity, terms, and payment-protection checks.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

1 finding contributed to this verdict, raised by registration and ownership.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of memoriesretreats.com.

- The request stayed on memoriesretreats.com. It was not redirected to another domain. CLEAR
- Registration is published under NETWORK SOLUTIONS, LLC.. CLEAR
- DNS for this domain is served by worldnic.com, across 2 name servers. NOTED
- The registration is paid up to 2033-05-21. CLEAR
- The earliest public archive of this site is from 2009-10-27. CLEAR
- It is hosted on LIQUIDNETLTD1, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about memoriesretreats.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
