

# Is men.gov.ma legit? TrustSniffer's high-trust assessment: 90/100

men.gov.ma

## Verdict

90

OUT OF 100

HIGH TRUST

men.gov.ma appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-17 by automated analysis. Classification confidence 70%.

What this site appears to be

Official Moroccan Ministry of National Education portal in Arabic (with language options). Publishes news, ministerial memos, exam results links, digital education platforms (Masar family), tenders, competitions, statistics and partner listings. Serves informational and service-access functions for citizens, students, teachers and administrators.

## Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
  - Module-level completeness metadata is unavailable for this legacy report.

No screenshot is retained for this report.

## Key findings

---

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2000.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

## Full analysis

---

### Overview

This is an official Moroccan Ministry of National Education portal presenting ministry news, official notices, examination information, tenders, statistics, and access to public educational services such as the Masar platforms. Its apparent purpose is informational and administrative service delivery for students, families, teachers, administrators, and citizens rather than commercial activity.

### Scam/Impersonation Risk

No contradictions, phishing indicators, malicious detections, or confirmed impersonation signals were observed. The site's content, navigation, public-service purpose, and government-domain context are mutually consistent with an established ministry portal. Three abuse reports were associated with the hosting IP, but they carry a low confidence rating and are attributed to an education-sector address operated by the national education department; this is a soft infrastructure-reputation signal, not evidence of scam activity by the website. A naming-similarity heuristic referencing "me.com" was not supported by observed impersonation evidence and is therefore not treated as an identity contradiction.

#### EVIDENCE

- The homepage identifies the Ministry of National Education and provides ministry news, official memoranda, examination notices, public services, tenders, and institutional information.
- The homepage provides language options and links to official education-related services and partner institutions, with no login form, hidden form, wallet connection, or sensitive data-collection mechanism observed.
- Domain registration: created 2009-01-08; age reported as 17.62 years.
- Web-archive coverage: 134 snapshots spanning 2000-10-19 to 2026-07-18, covering 27 tracked years.

### Regulatory Verification Notes

The reviewed pages present a government ministry identity and a public-service operating model, not a financial or commercial service requiring a market licence. The site identifies the responsible ministry through its institutional pages and publishes governmental functions, organizational information, announcements, and official documents. No commercial licence or licence number is presented; for this type of government information portal, that is a disclosure and verification note rather than evidence of deception. The real-world

operator connection remains apparently legitimate and evidence-consistent, but is not independently proven by this assessment.

#### EVIDENCE

- The ministry pages describe governmental responsibilities, organizational structure, sectors, strategic direction, official documents, and public announcements.
- The homepage links to ministry services including Masar family, student, and teacher platforms, as well as examinations, recruitment notices, and procurement announcements.
- TLS certificate: issued by GEANT TLS RSA 1; OV validation; valid to 2026-12-22.
- The site uses the sovereign Moroccan government namespace “gov.ma,” consistent with its stated public-sector purpose.

#### What to Verify Next

Before credential or payment interactions with any linked service, independently confirm that the destination is reached through the ministry's own service directory and that the service's stated operator is the expected public authority. For any service involving transactions or personal records, review the applicable terms, privacy notice, support route, and available payment protections; official contact channels should also be confirmed through an independent institutional source where practical.

#### EVIDENCE

- The services page provides the ministry's internal navigation to digital education platforms and examination services.
- The contact page is available through the site's primary navigation.
- The homepage links to external examination and institutional-partner destinations, making destination validation relevant before sensitive interaction.

#### Summary Verdict

Available evidence is consistent with an established, apparently legitimate public-service website. The overall posture is high trust and low risk, with no contradiction-based scam or impersonation indicators observed; the principal residual limitation is that the operator identity is likely rather than independently verified.

#### Infrastructure Integrity

The site resolves directly to institutional hosting operated by CNRST in Morocco, without a detected CDN or WAF layer. This provides less edge-layer protection than a CDN-fronted deployment, but the identified public-sector hosting arrangement and valid organization-validated TLS certificate are consistent with the site's stated institutional role and do not introduce a legitimacy contradiction.

#### EVIDENCE

- Hosted on AS30983, CNRST (Centre National pour la Recherche Scientifique et Technique), MA; one resolved IP and one likely origin IP were identified.
- No CDN or WAF vendor was detected; edge IP count was 0 and likely origin IP count was 1.
- TLS certificate subject organization: Ministère de l'Education Nationale du Pr  scolaire et des Sports; validation level: OV; expiry: 2026-12-22.

#### Closing Assessment

Normal informational use is appropriate; before entering credentials or making any payment through a linked service, ordinary independent checks of the service identity, applicable terms, and payment protection should be completed.

Written analysis generated 2026-08-17 by the TrustSniffer Analysis Engine from the evidence in this report.

#### What the analysis found

No rule findings contributed to this verdict.

#### Signals weighed against the site

- AbuseIPDB: 3 reports on hosting IP 196.200.143.135 (Departement de l'Education Nationale - Rabat, University/College/School), 10% confidence.

#### Identity verification

|                                  |        |
|----------------------------------|--------|
| Status                           | LIKELY |
| Identity score                   | 80/100 |
| Identity verification confidence | 80%    |

- Identity verified on page
- Trusted social count=5

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

#### What TrustSniffer observed

First-party facts recorded during the assessment of men.gov.ma.

- The request stayed on men.gov.ma. It was not redirected to another domain. CLEAR
- Registration is published under ITISSALAT AL-MAGHRIB. CLEAR
- DNS for this domain is served by gov.ma, across 3 name servers. NOTED
- The registration is paid up to 2027-01-08. NOTED
- The earliest public archive of this site is from 2000-10-19. CLEAR
- It is hosted on CNRST (Centre National pour la Recherche Scientifique et Technique), from a server in MA. NOTED

## About this assessment

A trust score summarises the evidence TrustSniffer could collect about men.gov.ma at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
