

Is metamaskwallet.com.cn a scam? TrustSniffer's high-risk assessment: 0/100

metamaskwallet.com.cn

Verdict

0

OUT OF 100

CRITICAL RISK

metamaskwallet.com.cn shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 55%.

What this site appears to be

Chinese-language site providing articles and download guidance for MetaMask (browser extensions and mobile apps), plus related commentary on Swap, SocialFi, and GameFi.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

The page as captured

https://metamaskwallet.com.cn/

What metamaskwallet.com.cn served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2024.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

This Chinese-language website presents itself as a MetaMask information and download portal, offering browser-extension and mobile-application guidance together with articles about MetaMask, Swap, SocialFi, and GameFi. Its apparent business model is informational publishing, potentially supported by advertising or partnerships, rather than direct financial services.

Scam/Impersonation Risk

The site carries a **critical sensitive-interaction risk** because external reputation checks recorded a confirmed blacklist status, 17 malicious detections, and one suspicious detection, including findings from multiple major security providers. These signals outweigh the otherwise benign page-level presentation. The homepage uses the title “MetaMask官网 - 全球领先的以太坊&Web3钱包” and reproduces MetaMask-oriented download and support navigation, which creates a material risk that visitors could mistake the site for an official MetaMask channel, although the supplied page analysis did not confirm an impersonation, login form, hidden form, wallet connection, or wallet-drainer behavior. The published address `info@metamaskwallet.come` is a contact-

channel integrity anomaly because the top-level domain is a deliverability-breaking typo or possible typosquat. Evidence:

- External reputation checks recorded 17 malicious detections and 1 suspicious detection; the domain was also recorded as blacklisted.
- The homepage contains MetaMask download guidance for Chrome, iPhone, and Android and labels the site “MetaMask官网.”
- Behavioral inspection recorded 0 external XHR requests, 0 wallet-connect runs, 0 wallet-sensitive runs, 0 wallet-drainer runs, and 0 hidden forms.
- Domain registration records show creation on 2022-04-21 and an age of 4.33 years.

Regulatory Verification Notes

The website functions as an informational blog rather than presenting a clearly defined regulated financial service. Its footer displays Privacy Policy, Terms of Use, About, Support, and related navigation, and includes the text “湘ICP备2023031513号,” but the supplied pages do not provide a verified financial-services license, license number, or independently confirmed operator identity. This is a material disclosure gap for a site directing visitors toward cryptocurrency-wallet downloads, but the absence of a license is a verification issue rather than standalone proof of fraud. The available ownership record identifies 上海曼珠沙华体育科技有限公司 and the registrar as 上海福虎信息科技有限公司; that record does not independently establish a connection to MetaMask. Evidence:

- The homepage footer lists legal and corporate-navigation items including Privacy Policy, Terms of Use, About, and Support, but no verified financial license is shown.
- The homepage displays “湘ICP备2023031513号” as its visible registration-style disclosure.
- WHOIS records identify 上海曼珠沙华体育科技有限公司 as the owner and 上海福虎信息科技有限公司 as registrar.
- The site’s transport encryption uses a DV certificate issued by YR2, valid to 2026-09-26T09:01:45+00:00.

What to Verify Next

Before any sensitive interaction, an organisation should confirm through an independently sourced official MetaMask channel that the domain is an authorised publisher and that every download destination leads to the official software publisher. The visible registration disclosure and the named operator should be checked against the relevant Chinese registration and corporate records. Any proposed support or partnership contact should be validated through an offline or independently obtained channel rather than through the site alone. Evidence:

- The homepage provides direct download guidance for Chrome, iOS, and Android applications.
- The homepage presents MetaMask-branded navigation and articles but does not independently establish an authorised relationship with MetaMask.
- The site identifies a registration-style disclosure and a corporate owner, providing specific records for independent comparison.

Summary Verdict

The overall posture is critically unsafe for sensitive interaction. The site may be a functioning informational publication, but the convergence of confirmed blacklist status, malicious external detections, MetaMask-oriented official positioning, and unverified brand affiliation makes it unsuitable for login, credential submission, software installation, or financial activity.

Infrastructure Integrity

The site resolves to one likely origin address and is hosted in Hong Kong on AS132825, MYTEK-AS-AP - MYTEK TRADING PTY LTD, AU. No CDN is detected in the infrastructure record, while the infrastructure-normalization field marks the hosting environment as trusted; that is limited technical context only and cannot offset the external reputation findings.

Closing Assessment

Sensitive actions should not proceed through this site; any necessary research should remain read-only, with software, credentials, and transactions handled through independently authenticated official channels.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

- 01

Governance Risk
 - The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE
- 02

Sensitive Interaction Risk
 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

Analysis engine signal:direct_threat
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.

External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of metamaskwallet.com.cn.

- The request stayed on metamaskwallet.com.cn. It was not redirected to another domain.

CLEAR
- Registration is published under 上海福虎信息科技有限公司.

CLEAR
- DNS for this domain is served by alidns.com, across 2 name servers.

NOTED
- The registration is paid up to 2027-04-21.

NOTED

- The earliest public archive of this site is from 2024-11-16. CLEAR
- It is hosted on MYTEK-AS-AP, from a server in HK. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about metamaskwallet.com.cn at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
