- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2025.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Metro Bank's website is a UK retail and business banking portal presenting current accounts, savings, lending, mortgages, payments, branch and digital banking services, fraud support, customer assistance, regulatory disclosures, and deposit-protection information.

Scam/Impersonation Risk

No contradictions were observed across the site's identity, content, technical behavior, and external reputation. The homepage presents a coherent banking model, the certificate identifies Metro Bank PLC, and no phishing, impersonation, or malicious-reputation indicators were supplied. The domain has a long-established registration history; archival coverage is sparse but shows no evidence of suspicious repurposing.

- Domain registered on 2009-06-05, approximately 17.17 years old, through Easyspace Ltd.
- Archive records contain 3 snapshots spanning 2025, representing 1 tracked year.
- External reputation checks recorded 0 malicious and 0 suspicious detections; the site ranked 97,354 and remained within the global top 1 million.

Regulatory Verification Notes

The homepage identifies Metro Bank and describes conventional retail and business banking services, including accounts, savings, borrowing, mortgages, and payments. It also presents regulatory disclosures and FSCS protection information. The supplied evidence does not include a specific authorization number or independently verified registry result, so regulatory status remains a routine due-diligence confirmation point rather than an indication of deception.

- The homepage provides legal-identity, regulatory-disclosure, and FSCS-protection content.
- The site is hosted on AS19551, Incapsula Inc, United States.
- TLS uses OV validation, issued by Sectigo Public Server Authentication CA OV R36 for Metro Bank PLC, valid through 2026-10-29.

What to Verify Next

Institutional onboarding should confirm current authorization and the applicable deposit-protection scope through the relevant official registers. Support and account-change channels should also be validated through a known Metro Bank route before sensitive account amendments.

- The homepage includes fraud-support and customer-service navigation.

- The homepage links to fscs.org.uk for deposit-protection information.

Summary Verdict

The site presents as a legitimate, established, high-trust banking entity with consistent identity, credible service content, clean external reputation, and no observed impersonation or phishing contradictions. Normal interaction, including account login and standard account use, is appropriate.

Infrastructure Integrity

The website is protected by Incapsula CDN/WAF infrastructure, with observed edge addresses on AS19551 and no origin candidate identified. This architecture is a mitigating protection against direct origin exposure, not independent proof of legitimacy.

Closing Assessment

Prospective users may proceed with normal banking interaction, subject to standard organizational controls for regulated financial activity and account changes.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of metrobankonline.co.uk.

- The request stayed on metrobankonline.co.uk. It was not redirected to another domain. CLEAR
- Registration is published under Easyspace Ltd [Tag = EASYSPACE]. CLEAR
- DNS for this domain is served by rackspace.com, across 2 name servers. NOTED
- The registration is paid up to 2027-06-05. NOTED
- The earliest public archive of this site is from 2025-12-31. CLEAR
- It is hosted on INCAPSULA, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about metrobankonline.co.uk at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
