

Is michaelshapiromusic.com legit? TrustSniffer's high-trust assessment: 95/100

michaelshapiromusic.com

Verdict

95

OUT OF 100

HIGH TRUST

michaelshapiromusic.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 50%.

WHAT THIS SITE APPEARS TO BE

Official-looking musician website for Michael Shapiro with biography, discography, gallery, videos, show dates, and booking contact details. No forms requesting credentials or payments on-page; primary call-to-action is booking/contact.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

MICHAEL SHAPIRO

What michaelshapiromusic.com served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2005.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This is an artist and musician website for Michael Shapiro, presenting a biography, discography, gallery, videos, show information, and booking contact details. Its apparent business model is to promote music, performances, and booking services rather than sell financial products or request sensitive account activity.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent personal-artist profile with biography, music, performances, visual media, and booking navigation; the supplied page analysis found no phishing indicators, brand impersonation, malicious behavior, credential forms, or payment forms. The site's long registration history and sustained archival continuity are consistent with an established web presence, although they do not independently prove the real-world identity of the person represented.

EVIDENCE

- The homepage identifies Michael Shapiro as a singer, songwriter, and guitarist and provides biography, songs, gallery, videos, shows, and contact sections.
- The page analysis recorded no red flags, no login form, no sensitive form, no hidden forms, and no suspected brand impersonation.
- The domain was registered on 2005-02-16 and is approximately 21.52 years old.
- Historical coverage records 88 archive snapshots spanning 2005-12-23 through 2025-07-14, across 21 years.

Regulatory Verification Notes

This is a personal musician and booking site, not a site presenting regulated financial, investment, or brokerage services. The available pages do not evidence a separate legal-entity disclosure, licensing statement, or registration number; for this business model, that is a transparency point to clarify rather than an indication of fraud. The apparent identity is therefore site-consistent but not independently verified. Registration through GoDaddy.com, LLC and hosting on Google infrastructure provide contextual legitimacy signals, while neither establishes ownership or formal business status.

EVIDENCE

- The site's navigation and content are centered on artist biography, music, performances, and booking rather than regulated financial services.
- The domain registrar is GoDaddy.com, LLC; the recorded registration date is 2005-02-16 and the recorded expiry date is 2028-02-16.
- The site is served through AS15169, identified as GOOGLE - Google LLC, US.
- The transport certificate is issued by YR2, uses DV validation, and is valid through 2026-10-15.

What to Verify Next

Before any credential or payment interaction associated with a booking, the prospective counterparty should independently confirm the performer's identity and booking authority through a venue, management, or other offline channel. The relevant engagement terms should be reviewed for cancellation, refund, deliverables, and payment protections, with any transaction handled through a method offering appropriate dispute rights. Official contact channels should also be confirmed independently before sensitive information is exchanged.

EVIDENCE

- The About and Contact pages provide the identity and engagement points that should be cross-checked against an independent source.
- The booking-oriented site model makes cancellation terms, performance deliverables, and payment protections the material due-diligence items.
- The supplied page analysis found no on-page credential or payment form, so any later request for such information should be assessed in the context of the specific booking interaction.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website and supports a high-trust, low-risk posture for its stated purpose. The conclusion concerns the site’s observed legitimacy signals and does not constitute independent proof of the real-world operator’s identity.

Infrastructure Integrity

The site resolves to Google Cloud infrastructure in the United States, with one identified IP and no CDN edge or vendor WAF identified in the supplied infrastructure data. Google Cloud provides established hosting infrastructure and the valid TLS configuration mitigates routine transport and hosting-exposure concerns, but infrastructure protection is not proof of operator legitimacy.

Closing Assessment

Ordinary engagement may proceed for the site’s stated artistic and booking purposes, subject to independent counterparty, contractual, and payment-protection checks before credentials or funds are provided.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of michaelshapiromusic.com.

- The request stayed on michaelshapiromusic.com. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by domaincontrol.com, across 2 name servers. NOTED
- The registration is paid up to 2028-02-16. CLEAR
- The earliest public archive of this site is from 2005-12-23. CLEAR
- It is hosted on GOOGLE, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about michaelshapiromusic.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
