

# Is milannews.it legit? TrustSniffer's high-trust assessment: 90/100

milannews.it

## Verdict

90

OUT OF 100

HIGH TRUST

milannews.it appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-11 by automated analysis. Classification confidence 55%.

What this site appears to be

Italian-language fan news site focused on A.C. Milan coverage: transfers, match reports, podcasts and editorial pieces. Uses cookie consent and third-party advertising/analytics; explicitly labeled as not an official A.C. Milan site.

## Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
  - Module-level completeness metadata is unavailable for this legacy report.

## Key findings

---

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

## Full analysis

---

### Overview

Milannews.it is an Italian-language A.C. Milan fan-news website presenting transfer-market coverage, match reports, player ratings, podcasts, videos, and editorial content. Its apparent business model is independent sports journalism funded through advertising, analytics, and related cookie-based audience services, and it clearly presents itself as separate from the official A.C. Milan organisation.

### Scam/Impersonation Risk

No contradictions were observed: the available evidence indicates no phishing, impersonation, blacklist, or malicious-content finding. The site's explicit independent-fan-media positioning is consistent with its editorial content, while the absence of login forms, sensitive submission forms, wallet-connect activity, or credential-harvesting mechanics materially reduces the risk associated with ordinary browsing. Behavioural indicators involving advertising traffic, inline scripts, DOM changes, and external requests are more consistent with an ad-supported publishing environment and consent-management activity than with a confirmed abuse pattern. The site should nevertheless not be treated as proof of affiliation with A.C. Milan or of the independently verified identity of its operator.

#### EVIDENCE

- The homepage is classified as news/fan media and contains Milan transfer coverage, match reports, player ratings, podcasts, and videos, with no identified phishing or impersonation indicators.
- The homepage contains no login form, sensitive form, external password form, hidden form, wallet-provider activity, or wallet-drainer activity.
- External reputation checks recorded 0 malicious detections, 0 suspicious detections, and no blacklist hit; the domain is ranked 39387 and is within the top 1 million sites.
- The domain was registered on 2008-03-03 and is approximately 18.45 years old.

### Regulatory Verification Notes

This is an editorial sports-media website rather than a site presenting financial, investment, or other regulated services. The homepage and footer provide privacy and cookie notices, and the site identifies its editorial nature, but the available evidence does not independently verify the real-world operator. Registration records associate the domain with Andrea Pasquinucci and TC&C srl; that association is a useful identity lead, not proof that the publisher operating the website is legally or operationally identical to those parties. No financial licence, regulatory registration number, or regulated-service claim was identified, which is a limited disclosure point

rather than evidence of scam activity. A mid-level page-authority signal and the absence of a broker-dataset match provide contextual support but do not constitute a legal or licensing determination.

#### EVIDENCE

- The homepage and footer display privacy and cookie notices and describe advertising, analytics, and partner data processing.
- Domain-registration data lists Aruba Business s.r.l. as registrar, with Andrea Pasquinucci and TC&C srl recorded as the associated owner and organisation.
- The site's transport encryption is a valid DV certificate issued by YR1, valid to 2026-10-04.
- Hosting is on AS16276 operated by OVH - OVH SAS, FR.

### What to Verify Next

Before relying on the site for commercial, contractual, or identity-sensitive purposes, independently confirm the publisher's legal identity and establish that any external service, advertiser, or linked counterparty is the intended entity. Review the privacy and cookie controls before consenting to partner data processing, and use independently sourced contact details or offline confirmation if a consequential interaction is proposed.

#### EVIDENCE

- The homepage presents an independent editorial business model funded by advertising and network ad sales.
- The cookie-consent interface states that data may be processed by the site and its partners for advertising, measurement, audience analysis, and service development.
- No login or sensitive-data submission workflow was observed on the homepage, so any later request for credentials or payment details should be assessed as a separate interaction.

### Summary Verdict

Available evidence is consistent with an established, apparently legitimate, low-risk sports-news website and supports a high-trust posture for ordinary editorial use. The operator's real-world identity remains independently unverified, so the trust assessment should not be interpreted as proof of corporate identity or official A.C. Milan affiliation.

### Infrastructure Integrity

The website is protected by a CDN/WAF layer, with observed edge addresses on AS16276 operated by OVH - OVH SAS in France; an origin server address was not observable in this analysis. This infrastructure provides a mitigating layer against direct exposure and common web abuse, but it is not, by itself, evidence of legitimacy.

### Closing Assessment

Routine browsing is proportionate to the assessed posture; before submitting credentials or making any payment connected with the site or an external service, ordinary independent checks of the counterparty, terms, and payment protections should be completed.

Written analysis generated 2026-08-11 by the TrustSniffer Analysis Engine from the evidence in this report.

## What the analysis found

No rule findings contributed to this verdict.

## Identity verification

|                                  |            |
|----------------------------------|------------|
| Status                           | UNVERIFIED |
| Identity score                   | 30/100     |
| Identity verification confidence | 50%        |

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

## What TrustSniffer observed

First-party facts recorded during the assessment of milannews.it.

- The request stayed on milannews.it. It was not redirected to another domain. CLEAR
- Registration is published under Aruba Business s.r.l.. CLEAR
- DNS for this domain is served by abdns.info. NOTED
- The registration is paid up to 2027-05-16. NOTED
- It is hosted on OVH, from a server in FR. NOTED

## About this assessment

---

A trust score summarises the evidence TrustSniffer could collect about milannews.it at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
