Full analysis

Overview

This is the Minimartieni corporate product website for STADA Romania, presenting children's multivitamins and supplement products, including the PROimun range, product information, company details, privacy and cookie policies, and a link to Facebook; its apparent purpose is brand promotion and consumer product sales.

Scam/Impersonation Risk

No contradictions were observed between the site's stated purpose, its corporate presentation, and the observed technical or reputation signals. The homepage identifies the Minimartieni brand, provides a Romanian telephone number, a business address, and an address associated with the STADA domain, while the captured pages contain no login forms, payment forms, requests for sensitive information, or suspicious redirects. External checks recorded no malicious or suspicious detections, no phishing or impersonation indicators, and no broker-dataset match; coverage was partial, so this supports rather than proves the site's legitimacy.

EVIDENCE

- The homepage presents Minimartieni children's vitamin products and links to product, "About Us," blog, privacy, and cookie pages.
- The homepage and contact area provide the telephone number 021.316.0640, the Bucharest address, and the contact address suport@stada.ro.
- Domain registration: 2003-06-03; age 23.23 years.
- Archive history: 71 snapshots, 23 years tracked, first seen 2004-06-03 and last seen 2026-05-11.

Regulatory Verification Notes

The available evidence is consistent with an established, apparently legitimate consumer-health product site, but the real-world operator identity is not independently verified. The pages identify "Stada M&D S.R.L." and provide corporate contact details, but the reviewed content does not present a license or registration number; for a product-information and retail brand site, this is a regulatory-disclosure point to confirm rather than evidence of deception. The site's claims that products were developed with paediatricians and contain specified vitamins and minerals should be assessed against applicable Romanian and European consumer-health advertising requirements if commercial reliance is contemplated.

EVIDENCE

- The homepage identifies Stada M&D S.R.L. and provides a physical Bucharest address.
- The site includes dedicated privacy and cookie-policy pages.
- Hosting: AS205275, ROMARG - ROMARG SRL, RO.
- TLS certificate: issuer YR1, DV validation, valid to 2026-10-03T12:07:24+00:00.

What to Verify Next

Before credential or payment interactions, an interested party should independently confirm the relevant corporate identity through an official company registry, confirm applicable product and advertising compliance through the appropriate Romanian authority, and review the merchant's return, delivery, and payment-protection arrangements. Any purchase flow reached through linked or external pages should be checked separately, including confirmation that contact and support channels correspond to the independently confirmed business.

EVIDENCE

- The captured site is informational and contains no sensitive-data or financial-transaction forms.
- The homepage links to product pages rather than displaying a complete checkout process.
- The site provides corporate contact details that can be compared with an independent registry or offline contact route.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website with a low-risk interaction profile and no observed scam, phishing, or impersonation contradiction. The trust posture is high, while operator identity remains likely rather than independently proven.

Infrastructure Integrity

The site resolves to one identified IP address in Romania, with no CDN or WAF vendor detected and a likely origin address directly observable in the hosting configuration. This is a straightforward hosting posture rather than evidence of malicious infrastructure; the valid DV TLS certificate provides transport protection for ordinary browsing.

Closing Assessment

Normal browsing is proportionate to the evidence; before submitting credentials or making a payment, ordinary independent checks of the merchant identity, transaction terms, and payment protections should be completed.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about minimartieni.ro at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
