

Is mmpgc.com legit? TrustSniffer's high-trust assessment: 100/100

mmpgc.com

Verdict

100

OUT OF 100

HIGH TRUST

mmpgc.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Official-looking college website for Mahila Mahavidyalaya (M.V. PG College), Haridwar. Contains history, course offerings, admission instructions, contact details and downloadable prospectuses. No login/payment forms or obvious fraud indicators present.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2013.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Mahila Mahavidyalaya PG College's website is an informational college portal for M.V. PG College in Satikund, Haridwar, presenting institutional history, academic courses, admissions guidance, fee information, facilities, events, contact details, and downloadable prospectuses.

Scam/Impersonation Risk

No phishing, impersonation, blacklist, malicious-content, or conflicting-identity indicators were observed. The site's content is consistent with an established educational institution: it describes the college's history, women-focused educational mission, course offerings, admissions process, and institutional activities, without presenting speculative financial products or aggressive commercial claims. Behavioral inspection did identify suspicious inline scripting and limited network or console anomalies, but these were not accompanied by hidden forms, external password collection, wallet activity, cloaking, or other malicious behavior; they therefore remain minor technical-quality observations rather than evidence of deception. The real-world operator remains independently unverified, so the site's apparent institutional legitimacy should not be treated as proof of identity.

EVIDENCE

- Registration records show creation on 2013-05-17, an age of 13.27 years, expiry on 2028-05-17, and registration through BigRock Solutions Ltd.
- The archival record spans 2013-06-14 through 2025-04-19, covering 13 years.
- The homepage presents the college name, Haridwar location, historical account, academic mission, and institutional navigation without phishing indicators.
- External checks recorded no malicious or suspicious detections, while coverage was not universal.

Regulatory Verification Notes

The About, Courses, Admissions, and Fee Structure pages provide substantive educational and administrative information, including degree programmes such as B.Sc., M.Sc., B.Com., M.Com., BBA, and M.A. The reviewed material does not present a license number, registration number, or clearly identified regulatory authority, which is a transparency point for independent confirmation rather than evidence of a scam. Registration data associates the domain with Sachin Sharma and Wideas, but that association has not been independently connected to the college's real-world operating entity. The available third-party broker context produced no match, and should not be interpreted as a licensing determination.

EVIDENCE

- The About and history pages identify Mahila Mahavidyalaya PG College and describe its institutional origins, founders, academic development, and Haridwar role.
- The Courses, Admissions, and Fee Structure pages describe academic programmes, admission instructions, and tuition-related information; no license or registration number is displayed in the reviewed content.
- The site's TLS certificate is issued by YR2, uses DV validation, and is valid to 2026-10-24.

What to Verify Next

Before credential or payment interactions, independently confirm the college's legal operating identity and academic recognition through the relevant Indian education authority or the institution's independently published official channels. Admissions personnel should confirm that any prospectus, fee request, or payment instruction corresponds to the institution and uses payment-protection mechanisms appropriate for an educational transaction. Contact details should be validated through an offline or independently sourced route rather than relying solely on information presented by the website.

EVIDENCE

- The Admissions pages provide prospectus downloads and application guidance that can be cross-checked against an independent institutional or education-authority source.
- The Contact page provides administrative contact channels for confirmation of admissions and payment instructions.
- The site capture contained no login or sensitive payment forms, so any future request for credentials or funds should be assessed as a separate interaction.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate, low-risk college website and supports a high-trust posture. The classification is strong, but independent verification has not conclusively established the real-world operator behind the site.

Infrastructure Integrity

The site is hosted directly on AS135222, operated by MWNASHIK-AS — MilesWeb Internet Services Pvt Ltd, India, with no detected CDN or WAF edge layer and three likely origin addresses. This is a conventional, identifiable hosting arrangement; the absence of a protective CDN is a technical exposure consideration, not an indication of illegitimacy.

EVIDENCE

- Hosting infrastructure resolves to AS135222, MWNASHIK-AS — MilesWeb Internet Services Pvt Ltd, IN.
- The infrastructure record shows 3 unique IP addresses, 0 edge IP addresses, and 3 likely origin IP addresses.
- The site's transport encryption uses a valid YR2 DV certificate.

Closing Assessment

Ordinary browsing and information-gathering are proportionate to the site's assessed posture; independent institutional, payment, and merchant-identity checks should be completed before submitting credentials or funds.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of mmpgc.com.

- The request stayed on mmpgc.com. It was not redirected to another domain. CLEAR
- Registration is published under BigRock Solutions Ltd.. CLEAR
- DNS for this domain is served by solishosting.pro, across 4 name servers. NOTED
- The registration is paid up to 2028-05-17. CLEAR

- The earliest public archive of this site is from 2013-06-14. CLEAR
- It is hosted on MWNASHIK-AS, from a server in IN. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about mmpgc.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
