

Is mojemieszkanie.eu a scam? TrustSniffer's high-risk assessment: 0/100

mojemieszkanie.eu

Verdict

0

OUT OF 100

CRITICAL RISK

mojemieszkanie.eu shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

A Polish-language site titled 'Miętowe Światło' presenting a large alphabetical index of locations and article counts — functions as a local business directory and blog. No login, payment, or crypto interactions are present in the provided DOM.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

At a glance

The page as captured

<https://mojemieszkanie.eu/>

What mojemieszkanie.eu served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2015.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

Miętowe Światło is a Polish-language local business directory and blog that presents an alphabetical index of locations, listed companies, and articles, apparently supporting advertising, local listings, or lead generation rather than direct financial or account-based services.

Scam/Impersonation Risk

The site's visible content is informational and directory-oriented; the supplied homepage inspection found no login, payment, cryptocurrency, or credential-collection mechanism, and no brand impersonation was identified. However, this benign presentation is materially outweighed by confirmed external threat signals: the domain received 11 malicious detections, including detections associated with Fortinet and Sophos, and is confirmed on external blacklists. These are direct reputation contradictions and justify treating the site as unsuitable for sensitive interaction, even though the live page itself does not display conventional phishing mechanics.

EVIDENCE

- The homepage presents “Miętowe Światło,” a location-based directory, with extensive company and article listings and no sensitive forms.
- External security assessment recorded 11 malicious detections; Fortinet and Sophos were among the flagged vendors, and external blacklist status was confirmed.
- Registration continuity dates the domain to 2014 (~11.05 years old); historical records show 6 archive snapshots spanning 2015-08-01 to 2025-02-20 (11 years tracked).

Regulatory Verification Notes

The available site content includes navigation to a Contact page but does not clearly establish a responsible legal entity, licensing authority, or authorization number. Operator identity remains unverified, and governance and ownership transparency are therefore insufficient for regulated or financially consequential engagement. The domain is registered through DonDominio.com / Soluciones Corporativas IP, SL; this identifies the registrar, not the operating entity. No broker match was returned in the supplied third-party contextual data, but that signal is neither a licensing determination nor a clearance.

EVIDENCE

- The available homepage and Contact navigation do not provide a clearly attributable legal-entity and authorization disclosure.
- The domain registrar is DonDominio.com / Soluciones Corporativas IP, SL.
- The site is hosted on AS13335 (CLOUDFLARENET - Cloudflare, Inc., US).
- TLS uses issuer WE1 with DV validation and is valid to 2026-09-26.

What to Verify Next

Any proposed engagement should first establish the operator’s legal identity and confirm any claimed authorization directly with the applicable official registry. Contact details should be validated through an independently sourced, offline channel rather than relying solely on information presented by the site. Security teams should also preserve the current page and reputation indicators for comparison before permitting any future transition to authenticated, downloadable, or transactional content.

EVIDENCE

- Confirm the responsible entity and authorization status against the relevant official registry before any regulated or financial use.
- Validate official contact channels through an independent source before exchanging sensitive information.
- Reassess the site if its content, navigation, or interaction model changes from the currently observed informational directory.

Summary Verdict

The overall posture is **critical risk**, with the site’s apparent informational purpose unable to offset the confirmed external threat and blacklist contradictions. The operator’s real-world identity is not independently verified, so the

site cannot be treated as an established or cleared service for sensitive activity.

Infrastructure Integrity

Cloudflare CDN and WAF protection provide a mitigating layer against direct exposure of hosting infrastructure, and all observed addresses were CDN edge servers; the origin server was not observable in this analysis. This infrastructure reduces some exposure risk but does not validate the site's legitimacy or offset the external reputation findings.

Closing Assessment

Prospective users should limit activity to passive observation and should not log in, submit credentials, download untrusted content, or conduct financial transactions through the site.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- A large share of what the page loaded came from other domains.
Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_MODERATE
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of mojemieszkanie.eu.

- The request stayed on [mojomieszkanie.eu](#). It was not redirected to another domain. CLEAR
- Registration is published under [DonDominio.com / Soluciones Corporativas IP, SL](#). CLEAR
- DNS for this domain is served by eu for more info.. NOTED
- The earliest public archive of this site is from 2015-08-01. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about [mojomieszkanie.eu](#) at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
