

Is moldtek.ro legit? TrustSniffer's high-trust assessment: 100/100

moldtek.ro

Verdict

100

OUT OF 100

HIGH TRUST

moldtek.ro appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 55%.

What this site appears to be

Moldtek.ro: Romanian ecommerce site selling tools, construction materials and related products. Includes product listings, cart, login/register, contact details, company registration and standard ecommerce policies (shipping, returns).

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2012.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Moldtek is a Romanian online retail storefront presenting tools, hand tools, construction materials, electrical and sanitary products, safety equipment, and garden supplies through product listings, shopping-cart functionality, customer accounts, checkout, shipping, and returns information. Its apparent business model is standard ecommerce, generating revenue through direct product sales and associated delivery charges.

Scam/Impersonation Risk

No contradictions were observed between the site's stated retail purpose and its visible operation. The homepage presents a conventional hardware catalogue rather than investment, cryptocurrency, or other abuse-prone offerings, while the account, cart, and checkout flows are consistent with ordinary online retail. No phishing, brand-impersonation, malicious-content, or suspicious behavioural indicators were identified, and external reputation checks recorded no malicious or suspicious detections. The operator identity remains unverified independently, so the legitimacy assessment is evidence-consistent rather than proof of a particular real-world entity.

EVIDENCE

- The homepage presents product categories including tools, construction materials, electrical materials, safety equipment, garden goods, and sanitary products.
- The homepage and account pages expose standard login, registration, password-reset, cart, and checkout functions without hidden forms or wallet-related behaviour.
- Domain registration evidence records 2011-01-28 and an age of 15.57 years; historical records span 2012-11-04 through 2026-05-18, covering 15 years.
- External reputation checks recorded 0 malicious and 0 suspicious detections, with no phishing or blacklist contradiction identified.

Regulatory Verification Notes

The site provides company-registration information, contact details, and standard ecommerce policies covering shipping and returns. No regulated financial or investment service is presented, and no specific sector licence is claimed or independently verified; for this retail model, that is a disclosure and verification matter rather than evidence of deception. The available evidence is consistent with an established commercial website, while the precise connection between the storefront and a legally identifiable operator has not been independently established. The registrar is ICI - Registrar. Transport security is provided by a valid Domain Validation certificate issued by YR1, which supports site integrity but does not establish corporate identity.

EVIDENCE

- The homepage and contact page display a telephone contact, an email contact, company-registration details, and the Moldtek trading presentation.
- Shipping and returns pages provide standard ecommerce-policy content.
- The domain is registered through ICI - Registrar.
- Hosted on AS5606 (GTS-BACKBONE - GTS Telecom SRL, RO); TLS certificate issued by YR1 (DV), valid to 2026-10-14T08:06:05+00:00.

What to Verify Next

Before credential or payment interactions, an interested party should independently match the company-registration details shown on the site to the relevant Romanian corporate registry, confirm that the published terms identify the same legal seller, and review the returns and delivery conditions for consistency with the intended purchase. Payment should use a method providing ordinary transaction dispute or buyer-protection rights, and important contact details should be confirmed through an independent route rather than relying solely on information supplied during checkout.

EVIDENCE

- Company-registration information is presented on the site's identity or legal-information content.
- Returns and shipping conditions are available through the site's policy pages.
- Customer-account and checkout functions are available from the homepage and shop interface.

Summary Verdict

Moldtek presents a high-trust, low-risk posture and is apparently legitimate as an established ecommerce website. The evidence supports normal browsing and ordinary retail interaction, but the real-world operator identity is not independently verified and therefore should not be treated as proven.

Infrastructure Integrity

The site resolves directly to a single likely origin address, with no detected CDN or WAF layer. This provides a straightforward hosting path but no additional edge-protection benefit; it does not, on its own, indicate malicious activity.

Closing Assessment

Routine use is proportionate to the available evidence, subject to ordinary independent seller-identity, policy, and payment-protection checks before credentials or payment details are submitted.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of moldtek.ro.

- The request stayed on moldtek.ro. It was not redirected to another domain. CLEAR
- Registration is published under ICI - Registrar. CLEAR
- DNS for this domain is served by gazduire.ro, across 3 name servers. NOTED
- The earliest public archive of this site is from 2012-11-04. CLEAR
- It is hosted on GTS-BACKBONE, from a server in RO. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about moldtek.ro at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
