- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2015.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Mondadoristore.it is an Italian e-commerce bookstore presenting books, ebooks and audiobooks, music, accessories, gift cards, Kobo products, promotions, and store-related services for online retail sales.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent retail bookstore model with ordinary catalogue, promotional, contact, account, and checkout-related functions rather than investment, cryptocurrency, or other abuse-prone mechanics. The site's login and registration functionality did not expose hidden forms, external password-submission destinations, cloaking, wallet activity, or other observed indicators of phishing or brand impersonation. Some external requests, dynamic page changes, and browser-console errors occurred during interaction testing, but these did not produce a confirmed credential-exfiltration or malicious-behaviour signal.

EVIDENCE

- The homepage identifies the service as Mondadori Store and displays retail categories, product listings, promotions, Kobo offerings, gift cards, and store contacts.
- The homepage's login/registration and newsletter forms had no hidden forms, untrusted destinations, or external password forms; wallet-provider, wallet-drainer, and clipboard-hijacking activity were not detected.
- External reputation checks recorded zero malicious findings, zero suspicious findings, and no blacklist or phishing result for the domain.

Regulatory Verification Notes

Available evidence is consistent with an established, apparently legitimate retail website, although the real-world operator identity is not independently verified. The site presents corporate information and privacy/cookie notices, while the supplied materials do not show a regulated-sector licence or licence number; for a general bookstore this is a disclosure and verification consideration rather than an indication of deception. The registration record lists Mondadori Retail S.p.A. as the organisation and BARBERO & Associates Ltd as registrar. A separate broker-reputation dataset produced no match, which is contextual reputational support only and is not a regulatory finding.

EVIDENCE

- Domain registration: 2014-06-14; age 12.16 years; registrar BARBERO & Associates Ltd; organisation Mondadori Retail S.p.A.
- Web archive: 5,000 snapshots from 2015-01-22 through 2025-10-15, spanning 11 years tracked.
- Hosting: AS16509, Amazon.com, Inc. (AMAZON-02), US.
- TLS: Amazon RSA 2048 M04, DV validation, valid to 2027-01-18T23:59:59+00:00.

What to Verify Next

Before credential or payment interactions, an institution should independently confirm that the merchant identity and contact channels correspond to the intended Mondadori retail business. The applicable terms, returns and cancellation provisions, delivery conditions, gift-card rules, and payment-protection arrangements should be reviewed directly on the relevant site pages or through an independently obtained customer-service channel. Where a transaction is material, payment should use a method offering appropriate dispute and chargeback protections.

EVIDENCE

- The homepage provides links to “Contatti,” “Profilo,” product categories, promotions, and store information for independent review.
- The site includes corporate-information and cookie/privacy notices, while the supplied page evidence does not show a licence number or regulated-authority disclosure.
- The site is classified from its page content as an established online retail bookstore selling goods and related services rather than a regulated financial product.

Summary Verdict

The overall posture is high trust and low risk, with no observed scam, phishing, impersonation, or identity-contradiction indicators. The available evidence supports normal retail interaction with appropriate qualification that the underlying operator identity has not been independently verified.

Infrastructure Integrity

The website is protected by Amazon CloudFront CDN/WAF infrastructure, with observed edge addresses on AS16509 and no origin candidate exposed in the analysis. This reduces direct origin exposure and is a mitigating infrastructure signal, but it is not independently determinative of legitimacy.

Closing Assessment

Ordinary browsing and account use are proportionate to the assessed posture; credentials or payment details should be submitted only after the independent merchant-identity, returns, and payment-protection checks described above are satisfactory.

Written analysis generated 2026-08-10 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of mondadoristore.it.

- The request stayed on mondadoristore.it. It was not redirected to another domain. CLEAR
- Registration is published under BARBERO & Associates Ltd. CLEAR
- DNS for this domain is served by awsdns-53.org. NOTED
- The registration is paid up to 2027-06-14. NOTED
- The earliest public archive of this site is from 2015-01-22. CLEAR
- It is hosted on AMAZON-02, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about mondadoristore.it at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with

a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
