Full analysis

Overview

MotoDeal.com.ph is a Philippines-focused motorcycle marketplace and buying-guide portal that helps visitors compare motorcycle models, prices, specifications, promotions, financing options, insurance information, and reviews while connecting prospective buyers with partner dealerships.

Scam/Impersonation Risk

No contradictions, phishing indicators, brand-impersonation signals, or confirmed malicious reputation findings were observed. The site's content is coherent with an automotive marketplace: it presents motorcycle listings, dealer connections, financing information, news, reviews, videos, and email alerts, with no apparent attempt to imitate another brand or solicit credentials through a deceptive form. Its historical record also shows continuity with the same automotive-marketplace purpose.

- The homepage describes motorcycle comparison, pricing, financing, promotions, reviews, and connections with official dealerships.
- The site's historical record contains 139 snapshots from 2020-03-12 through 2026-01-20, spanning 7 years.
- External reputation checks recorded 0 malicious and 0 suspicious detections, with no blacklist or phishing hit.

Regulatory Verification Notes

MotoDeal presents itself as a commercial marketplace and referral platform rather than a regulated financial service. Its apparent business model is lead generation and referral or advertising revenue from connecting buyers with motorcycle dealerships. No specific licensing claim or license number is presented; this is a transparency item for business-model verification, not evidence of deception. No broker-dataset match was identified.

- The homepage identifies the service as a motorcycle marketplace and buying guide.
- The site offers dealer referrals, financing information, promotions, CTPL insurance content, and email subscriptions.
- Hosted on AS16509 (Amazon Data Services); TLS certificate issued by Amazon RSA 2048 M01, validation level DV, valid to 2027-01-25.

What to Verify Next

For institutional engagement or referral arrangements, confirm the operating company and any applicable commercial, insurance, or financing-related obligations through authoritative Philippine registries and the relevant dealership partners. Official contact channels and dealership affiliations should also be confirmed independently before entering a formal business relationship.

- The site states that it connects buyers with official motorcycle dealerships.
- The site provides motorcycle financing and CTPL insurance-related content.
- The homepage contains an email-subscription form and no sensitive credential-collection form.

Summary Verdict

MotoDeal.com.ph presents as a legitimate, established, and trustworthy marketplace with a coherent business purpose and no observed scam or impersonation contradictions. Normal interaction, including account login where offered and standard use of the site, is appropriate.

Infrastructure Integrity

The website is protected by Akamai CDN/WAF infrastructure, with observed addresses associated with Amazon-hosted edge infrastructure and no origin-server candidate exposed in the analysis. This layered edge posture reduces direct origin exposure and is a positive infrastructure-mitigation signal, while not independently proving legitimacy.

Closing Assessment

Prospective users and partners may proceed with normal site interaction, applying ordinary commercial due diligence for any consequential purchase, referral, or partnership decision.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	80/100
Identity verification confidence	80%

- Trusted social count=5

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about motodeal.com.ph at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
