- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

Mriia is a Ukrainian government educational ecosystem that presents free web and app services for students, parents, teachers, schools, preschools, partners, and other education participants, with onboarding, learning content, support functions, and the Mriia ID digital education document.

Scam/Impersonation Risk

No contradictions were observed: the available evidence contains no phishing, impersonation, malicious-reputation, or blacklist indicators. The homepage's public-service content is internally coherent, and interaction testing found no hidden sensitive forms, wallet activity, or external posting behavior. The site therefore presents as an apparently legitimate, low-risk public-service platform, although the real-world operator identity remains independently unverified.

EVIDENCE

- Domain registration record: registered 2023-10-10 (~2.84 years old).
- Homepage: no content red flags or suspected brand impersonation were identified.
- Interaction testing: 0 external XHR requests, 0 external posts, 0 hidden forms, and 0 wallet-connect runs.

Regulatory Verification Notes

The homepage presents Mriia as a state educational ecosystem rather than a commercial or financial service. It describes free access, Mriia ID, artificial-intelligence personalization, a content library, and Signal-based chats for education users; these features are consistent with the stated public-service purpose. No commercial licensing claim or registration number is presented in the available site content, so any applicable public-sector sponsorship, data-governance, or institutional responsibility should be confirmed independently. The gov.ua domain and clean external reputation support the site's apparent institutional character, but neither independently proves the identity of the operator.

EVIDENCE

- Homepage title: “Мрія — державна освітня екосистема” (“Mriia — state educational ecosystem”).
- Homepage: states that the web portal and application are free for schools, students, and parents and identifies partners and donors as part of the ecosystem.
- Domain namespace: mriia.gov.ua, using the gov.ua suffix.
- Transport encryption: TLS certificate issued by GoGetSSL RSA DV CA, validation level DV, valid to 2027-03-09 23:59:59 UTC.

What to Verify Next

Before credential or account interactions, independently confirm that the intended institution or sponsoring authority recognizes the domain and that the relevant privacy, data-use, and support terms are available through an official government channel. Where any paid or third-party service is introduced, confirm the responsible legal entity, applicable terms and return arrangements, and payment protections through an independent source rather than relying solely on on-site presentation.

EVIDENCE

- Homepage: provides separate “How to connect” and “Join Mriia” pathways.
- Homepage: lists onboarding routes for schools, preschools, educators, children, parents, partners, and talents.
- Homepage: contains 1 application/contact form, with no sensitive form detected and no untrusted submission destination identified.

Summary Verdict

The overall posture is **high trust and low risk**, and the available evidence is consistent with an established, apparently legitimate public-service website. The classification supports normal website use, while the operator’s real-world identity should not be treated as independently proven.

Infrastructure Integrity

The site is hosted on SE Diia’s DIIA-AS infrastructure in Ukraine and resolves to two likely origin addresses without detected edge IPs or a CDN. This provides a consistent hosting attribution, while the absence of additional CDN/WAF-layer protection means the hosting arrangement itself should be regarded as a mitigating technical signal rather than proof of legitimacy.

EVIDENCE

- Hosting infrastructure: served from AS212542 (DIIA-AS - SE Diia, UA).
- Resolved infrastructure: 2 unique IP addresses, with 0 edge IPs and 2 likely origin IPs.
- Hosting registry and location: RIPE NCC registry, country UA.

Closing Assessment

The proportionate course is ordinary use with independent confirmation of institutional identity, applicable data terms, and payment protections before sensitive credentials or any financial interaction are submitted.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about mriia.gov.ua at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
