Full analysis

Overview

Mundo do Marketing is an established Brazilian marketing news portal presenting industry news, editorials, interviews, reports, case studies, events, advertising opportunities, and newsletter subscriptions, with an apparent business model based on advertising, sponsored content, partnerships, events, and audience engagement.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents coherent marketing and business journalism, including coverage of brands, campaigns, sales, technology, and industry events; it does not display phishing indicators, financial solicitation, malware behavior, brand impersonation, or sensitive login functionality.

- The homepage contains substantial editorial content across news, interviews, reports, and marketing case studies.
- The homepage provides a newsletter signup without a sensitive-data form or untrusted submission destination.

Regulatory Verification Notes

The site operates as a media and marketing publication rather than a regulated financial service, so no financial license is expected from the observed business model. The available content includes privacy and terms links, while formal corporate or sector-specific registration details are not clearly identified; this is a minor transparency point rather than evidence of misconduct. External reputation checks were clean, and the domain has a long-established registration history.

- Registered 2005 (~20.97 years old).
- Served through AS16509, Amazon.com, Inc. (US).
- TLS certificate issued by YE1, domain-validated (DV), valid to 2026-10-27.

What to Verify Next

For formal procurement or partnership, confirm the publisher's legal contracting entity and independently validate the contact and advertising channels through an established business route. Where a regulated service is not involved, no additional financial-license verification is indicated by the observed business model.

- The homepage identifies the publication as "Mundo do Marketing" and exposes advertising and event-related offerings.

- The site provides privacy and terms links relevant to routine commercial engagement.

Summary Verdict

The website presents as a legitimate, established, and trustworthy media property with a coherent purpose, mature content profile, and no observed scam or impersonation indicators. Normal interaction, including newsletter signup and standard account or site use where offered, is appropriate.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure, with observed edge addresses hosted on Amazon AS16509 and no origin-candidate address exposed. This is a meaningful defensive control that reduces direct origin exposure, while remaining a mitigating infrastructure signal rather than proof of legitimacy.

Closing Assessment

Standard browsing and ordinary engagement are appropriate; higher-value commercial arrangements should follow normal organizational procurement and counterparty checks.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about mundodomarketing.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
