- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2011.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

My Appointment is an online booking platform for health, beauty, salon, and wellness services, presenting instant appointment scheduling, provider search, gift vouchers, and business-management functionality for consumers and service providers.

Scam/Impersonation Risk

No contradictions, phishing indicators, brand-impersonation signals, or confirmed blacklist findings were observed. The site's stated business purpose is coherent with its appointment-booking presentation, and its behavioral review found no hidden forms, wallet activity, cloaking, or suspicious scripts. The available evidence supports normal interaction, including account use and standard bookings.

- The homepage describes appointment booking, provider search, gift vouchers, and instant confirmations.
- The domain was registered in 2011 and is approximately 15.54 years old.
- The site has 217 archive snapshots spanning 2011–2026, covering 16 tracked years.

Regulatory Verification Notes

The service operates as an appointment-booking and business-management platform rather than presenting a regulated financial offering. No licensing claim or registration number is stated in the supplied site content; this is a transparency item for ordinary business verification, not evidence of deception. The available external reputation checks are clean, while page-authority signals provide supporting context rather than a regulatory conclusion.

- The site's business-model presentation identifies appointment services for healthcare, beauty, salon, and wellness providers.
- The domain registrar is Redi Internet Services, with registration extending through 2027.
- The site is served from AS327979 through DIAMATRIX C.C. in South Africa.
- TLS uses a DV certificate issued by Go Daddy Secure Certificate Authority - G2, valid through 2026-11-04.

What to Verify Next

Before forming a commercial relationship with a provider listed on the platform, confirm that provider's own business registration, authorization, cancellation terms, and payment conditions through independent records. For platform-level engagement, review the About Us, FAQ, Contact Us, and account terms for operator details and service responsibilities.

- The site exposes dedicated About Us, FAQ, Contact Us, and My Account areas for direct review.
- Pricing and the precise platform revenue model are not shown in the supplied homepage content.
- Provider-specific authorization and cancellation information should be confirmed with the relevant provider.

Summary Verdict

The website presents a legitimate, established, and trustworthy service with a coherent business purpose and no observed contradiction-based risk. Its overall posture supports normal use, including login, account actions, and standard transactions.

Infrastructure Integrity

The site resolves directly to three likely origin addresses without a detected CDN or WAF layer. Hosting through DIAMATRIX C.C. and identification in AS327979 provide attributable infrastructure context; the valid mainstream certificate is a mitigating transport-security control, not independent proof of legitimacy.

Closing Assessment

Normal interaction is appropriate, with ordinary commercial diligence applied to individual providers and any material service commitment.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of myappointment.co.za.

- The request stayed on myappointment.co.za. It was not redirected to another domain. CLEAR

About this assessment

A trust score summarises the evidence TrustSniffer could collect about myappointment.co.za at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
