

Is mycampusstore.in legit? TrustSniffer's high-trust assessment: 95/100

mycampusstore.in

Verdict

95
OUT OF 100

HIGH TRUST

mycampusstore.in appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not ScamLow Risk

Assessed 2026-08-11 by automated analysis. Classification confidence 70%.

What this site appears to be

Mycampus Store is a technology-focused news/blog site publishing articles about smartphones and automobiles. The site uses an IAB-style consent management platform and numerous ad vendors; there are multiple article listings and pagination but no apparent login or financial transaction flows.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

- Automated classification: Not Scam.
- Domain age: less than 1 year (registration continuity).
- Public web-archive history exists since 2020.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Mycampus Store is an ad-supported technology news and review website focused on smartphones, mobile hardware, and automobiles. It presents article listings, pagination, editorial material, and standard informational pages, with advertising and consent-management mechanisms forming its apparent business model rather than account-based services or direct financial transactions.

Scam/Impersonation Risk

No contradictions were observed: the available evidence shows no phishing, impersonation, confirmed blacklist, malicious reputation, suspicious form destination, wallet connection, credential-collection flow, or financial transaction interface. The homepage presents a conventional editorial format, including smartphone and automobile articles, while examples such as claims of a 300MP camera, 7500mAh battery, and a ₹9,500 price appear as article content rather than direct investment or payment solicitations. Historical continuity is strong and shows no detected repurposing, supporting the conclusion that the site is apparently legitimate, although the real-world operator remains independently unverified.

EVIDENCE

- The homepage is identified as an article-listing/news page with smartphone and automobile topics, no login form, no sensitive form, and no detected brand-impersonation indicator.
- External reputation checks recorded 0 malicious detections, 0 suspicious detections, and no blacklist or phishing hit.
- Archive provenance records 72 snapshots from 2020-08-09T13:58:02Z through 2026-05-11T04:54:33Z, spanning 7 years; the archive-derived domain age is 6.0013689253935665 years, while the current registration record lists creation on 2025-10-19T12:14:54Z and age of 0.81 years.

Regulatory Verification Notes

The site presents About Us, Contact Us, Privacy Policy, Terms & Conditions, Editorial Policy, Disclaimer, and Fact-Checking Policy pages. Its apparent activity is editorial publishing supported by advertising, not a financial, brokerage, or investment service, and no regulated-service license claim is presented. Accordingly, the principal verification consideration is operator identification and the accuracy of the site's disclosures rather than a specific financial authorization. The evidence is consistent with an established site, but it does not independently verify the legal entity behind it; the absence of a third-party broker match is contextual reputation information, not a licensing determination.

EVIDENCE

- The site's navigation exposes About Us, Contact Us, Privacy Policy, Terms & Conditions, Editorial Policy, Disclaimer, and Fact-Checking Policy pages.
- The site's hosting resolves through AS47583, identified as AS-HOSTINGER, Hostinger International Limited, CY.
- The site's transport encryption uses a YE1-issued DV TLS certificate valid to 2026-09-17T02:09:57+00:00.
- The site is presented as an advertising-supported news and review publication, with consent management and third-party advertising activity rather than a regulated transaction service.

What to Verify Next

Before any future commercial, credential, or partnership interaction, an independent party should confirm the operator named in the site's legal and contact materials, check that the terms and privacy disclosures are internally consistent, and establish official contact channels through an independent route. If the site later introduces paid products, subscriptions, or other transactions, the applicable merchant identity, refund or return terms, and payment-protection arrangements should be checked before payment or account use.

EVIDENCE

- The About Us and Contact Us pages provide the appropriate locations for confirming the responsible operator and official communication routes.
- The Terms & Conditions and Privacy Policy pages should be reviewed for the contracting entity, dispute terms, data-use disclosures, and any payment conditions.
- The site's current page analysis identified no login or financial transaction flow, so any future change toward account or payment activity would warrant renewed review.

Summary Verdict

Mycampus Store has a high-trust, low-risk posture, and the available evidence is consistent with an established, apparently legitimate website. The classification is strong, while the connection between the website and a specific real-world operator remains unverified.

Infrastructure Integrity

The site is hosted on AS47583 by Hostinger International Limited, with infrastructure resolving to hosting addresses rather than a separately identified CDN edge layer. This provides a conventional, attributable hosting arrangement but limited CDN-based exposure mitigation; infrastructure characteristics support, but do not establish, legitimacy.

Closing Assessment

Routine editorial browsing is proportionate to the assessed posture; any later credential or payment interaction should follow ordinary independent checks of the responsible entity, contractual terms, and payment protections.

Written analysis generated 2026-08-11 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of mycampusstore.in.

- The request stayed on mycampusstore.in. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by dns-parking.com, across 2 name servers. NOTED
- The registration is paid up to 2026-10-19. NOTED
- The earliest public archive of this site is from 2020-08-09. CLEAR
- It is hosted on AS-HOSTINGER, from a server in UA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about mycampusstore.in at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
