Full analysis

Overview

MyMarket.ma is a French- and multilingual Moroccan online supermarket presenting groceries, beverages, fresh foods, baby products, personal-care items, household supplies, pet products, promotions, and delivery services through a direct-to-consumer storefront.

Scam/Impersonation Risk

No phishing, impersonation, blacklist, malicious-content, or identity-contradiction signals were observed. The homepage presents a coherent retail model with extensive product categories, pricing and stock information, delivery terms, phone support, and customer contact functionality. Its established domain history and clean observed behavior further support continuity rather than a deceptive or repurposed operation.

- Domain registration: 2011-10-12; approximately 14.82 years old.
- Web archives contain 93 snapshots spanning 2012–2025, covering 14 tracked years.
- The homepage had no detected login form, hidden sensitive form, wallet activity, suspicious script, or external posting behavior.

Regulatory Verification Notes

The site operates as a conventional retail marketplace rather than presenting a regulated financial service. No regulatory license claim or license number is supplied in the available business description, so licensing is not applicable to the apparent retail model; corporate and consumer-disclosure details should nevertheless be confirmed through the site's legal and contact pages. External reputation checks were clean, and no broker-dataset match was identified.

- The homepage identifies the business as an online supermarket serving Morocco and advertises delivery throughout the country.
- External reputation checks recorded zero malicious and zero suspicious detections, with the domain inside the global top-million traffic set.
- The site's hosting infrastructure is served from AS13335, Cloudflare, Inc.; its TLS certificate is issued by YE1 using DV validation and is valid through 2026-09-09.

What to Verify Next

Before a commercial engagement, confirm the seller's legal entity, returns and delivery terms, accepted payment methods, and consumer-support channels through the site's legal and contact pages. For higher-value procurement, independently confirm the relevant Moroccan business details and retain order and payment records.

- The homepage provides product categories, promotions, delivery information, phone support, and email contact.
- The storefront is identified as a Shopify ecommerce site with no detected sensitive form or untrusted form destination.
- No license claim or license number appears in the supplied business-model evidence.

Summary Verdict

MyMarket.ma presents as a legitimate, established, and trustworthy ecommerce business with a coherent consumer-retail purpose and no observed contradiction or abuse signal. Normal interaction, including account login and standard transactions, is appropriate.

Infrastructure Integrity

Cloudflare CDN/WAF protection provides a meaningful layer of operational resilience and reduces direct exposure of the hosting environment. The observed address was a CDN edge address rather than an exposed origin, which is a mitigating infrastructure characteristic but not, by itself, proof of legitimacy.

- CDN edge address observed: 23.227.38.65.
- Hosting provider: CLOUDFLARENET — Cloudflare, Inc., US; registry: ARIN; country: Canada.

Closing Assessment

Standard browsing, account use, ordering, and customer-support interaction are proportionate to the site’s established trust posture, subject to normal commercial checks for any material purchase.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about mymarket.ma at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
