

Is mystableshop.com safe? TrustSniffer's low-trust assessment: 25/100

mystableshop.com

Verdict

25

OUT OF 100

LOW TRUST

mystableshop.com is low-trust and potentially risky.

Several risk patterns were present. Do not send money or personal details until you have verified this business another way.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-22 by automated analysis. Classification confidence 55%.

What this site appears to be

A minimal 'Coming Soon' placeholder for mystableshop.com with no links, forms, or contact/commerce information.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

At a glance

The page as captured

<https://mystableshop.com/>

What mystableshop.com served when TrustSniffer captured it on 2026-08-22. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2018.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

mystableshop.com is an under-construction landing page presenting only a “Coming Soon” message and identifying the domain as mystableshop.com. It does not currently present products, services, commerce functionality, account registration, or a defined business model.

Scam/Impersonation Risk

Confirmed external threat signals make this a high-risk site for sensitive interaction. Independent reputation checks identified multiple malicious detections and a confirmed blacklist status, which are direct contradictions to treating the domain as trustworthy. The abuse reports associated with the hosting address are attributed to shared Squarespace infrastructure rather than uniquely to this website, so they should not be read as conclusive evidence about the operator; however, that attribution does not offset the separate domain-level blacklist and malicious-detection findings. The homepage itself is benign in presentation, with no login form, payment flow, wallet connection, or impersonation content, but its minimal “under construction” state provides little positive evidence of legitimacy.

EVIDENCE

- The homepage displays only “Coming Soon,” “mystableshop.com,” and “We’re under construction,” with no links, forms, or transaction features.
- External reputation checks recorded 8 malicious detections and a confirmed blacklist status for the domain.
- Hosting-address intelligence recorded 24 abuse reports against 198.185.159.145; the subject was identified as a shared Squarespace infrastructure IP rather than a site-specific address.
- Archive metadata records 0 snapshots, with first seen 2018-08-06T11:03:37Z, last seen 2025-07-12T14:31:20Z, and 8 years tracked.

Regulatory Verification Notes

The site does not currently provide enough legal or commercial substance to establish the operating entity, jurisdiction, terms of service, return arrangements, or regulatory position. No license or registration number is disclosed on the available homepage; this is a verification gap rather than, by itself, proof of misconduct. The domain’s registration and transport configuration provide technical continuity, but they do not independently verify the real-world operator. A third-party broker-intelligence comparison produced no match and therefore supplies no affirmative regulatory or identity evidence.

EVIDENCE

- WHOIS records show registration on 2017-05-26 through Squarespace Domains LLC, with an age of 9.24 years and expiry on 2027-05-26.
- The site is served from AS53831, SQUARESPACE - Squarespace, Inc., US.
- The TLS certificate is issued by YR2 at DV validation level and is valid to 2026-11-10T07:34:55+00:00.
- The homepage contains no visible license authority, license number, corporate registration, terms, or business-entity disclosure.

What to Verify Next

Before any sensitive interaction is considered, the prospective counterparty should be independently identified through a government or industry registry appropriate to the business it eventually presents, and any claimed authorization should be checked directly with that registry. The eventual publication of legal terms, refund or delivery conditions, privacy information, and payment-processor details should be assessed before commercial engagement. Official contact channels should be confirmed through an independent route, and the domain should not be used for login, credential submission, or financial activity while the confirmed reputation concerns remain unresolved.

EVIDENCE

- The homepage currently provides no business, service, commerce, or contact details against which those checks can be performed.
- No licensing or registration information is presently available on the site.
- The current page has no account, password, payment, or wallet form, limiting the available basis for assessing future transaction controls.

Summary Verdict

The overall posture is **low trust**, with a material sensitive-interaction risk and unverified real-world identity. The available positive technical characteristics do not outweigh the confirmed external threat contradictions, and the site should not be treated as an established legitimate counterparty.

Infrastructure Integrity

The website is hosted on Squarespace infrastructure operated by Squarespace, Inc., with a resolved US hosting presence and standard platform-level protections. Infrastructure analysis identified no dedicated CDN edge layer and four likely origin candidates; these characteristics describe hosting architecture only and do not establish legitimacy.

Closing Assessment

Activity should remain limited to passive viewing until independent identity, authorization, and reputation checks produce satisfactory results; credentials and financial transactions should not be submitted in the interim.

Written analysis generated 2026-08-22 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

01 Governance Risk - Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check. Registration and ownership rule:KF_WHOIS_PRIVATE - The registration record withholds contact details for the operator. Registration and ownership rule:KF_WHOIS_HIDDEN	
02 Sensitive Interaction Risk - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor. Analysis engine signal:direct_threat - Most of what the page loaded came from other domains rather than from this one. Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_HIGH - The page sent data to a destination TrustSniffer does not recognise. Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_POSTS - The page exchanged network traffic with destinations TrustSniffer does not recognise. Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_TRAFFIC - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it. External reputation rule:EXT_BLACKLIST_CRITICAL	

Signals weighed against the site

- AbuseIPDB: 24 reports on hosting IP 198.185.159.145 (Squarespace, Inc., Content Delivery Network), 26% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of mystableshop.com.

- The request stayed on mystableshop.com. It was not redirected to another domain. CLEAR
- Registration is published under Squarespace Domains LLC. CLEAR
- DNS for this domain is served by nsone.net, across 8 name servers. NOTED
- The registration is paid up to 2027-05-26. NOTED
- The earliest public archive of this site is from 2018-08-06. CLEAR
- It is hosted on SQUARESPACE, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about mystables.shop at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
